Reading and writing recipe books, 1550-1800
Dec 10 2021 This collection of essays provides an overview of new scholarship on recipe books, one of the most popular non-fiction printed texts in, and one of the most common forms of manuscript compilation to survive from, the pre-modern era (c.1550-1800). This is the first book to collect together the wide variety of scholarly approaches to pre-modern recipe books written in English, drawing on varying approaches to reveal their culinary, medical, scientific, linguistic, religious and material meanings. Ten

scholars from the fields of culinary history, history of medicine and science, divinity, archaeology and material culture, and English literature and linguistics contribute to a vibrant mapping of the aspirations invested in, and uses of, recipes and recipe books. By exploring areas as various as the knowledge economies of medicine, Anglican feasting and fasting practices, the material culture of the kitchen and table, London publishing and concepts of authorship and the aesthetics of culinary styles, these eleven essays (including a critical introduction to recipe books and their historiography) position recipe texts in the wider culture of the sixteenth, seventeenth and eighteenth centuries. They illuminate their importance to both their original compilers and users, and modern scholars and graduate students alike.

It provides a comprehensive and updated view on reading-writing connections by drawing on extant research and findings. The book examines in detail such issues as modeling approaches to reading-writing relations, literacy development, reading and spelling across orthographies and integrative approaches to literacy instruction and remediation.

Reading Writing Interfaces Aug 06 2021 Lori Emerson examines how interfaces—from today's multitouch devices to yesterday's desktops, from

typewriters to Emily Dickinson's self-bound fascicle volumes—mediate between writer and text as well as between writer and reader. Following the threads of experimental writing from the present into the past, she shows how writers have long tested and transgressed technological boundaries. Reading the means of production as well as the creative works they produce, Emerson demonstrates that technologies are more than mere tools and that the interface is not a neutral border between writer and machine but is in fact a collaborative creative space. *Reading Writing Interfaces* begins with digital literature's defiance of the alleged invisibility of ubiquitous computing and multitouch in the early twenty-first century and then looks back at the ideology of the user-friendly graphical user interface that emerged along with the Apple Macintosh computer of the 1980s. She considers poetic experiments with and against the strictures of the typewriter in the 1960s and 1970s and takes a fresh look at Emily Dickinson's self-printing projects as a challenge to the coherence of the book. Through archival research, Emerson offers examples of how literary engagements with screen-based and print-based technologies have transformed reading and writing. She reveals the ways in which writers—from Emily Dickinson to Jason Nelson and Judd Morrissey—work with and against media interfaces to undermine the assumed transparency of conventional literary practice.

[Parallel Learning of Reading and Writing in Early Childhood](#) Jan 11 2022 *Parallel Learning of Reading and Writing in Early Childhood* explores why it's important to provide a balanced language learning environment for young children and offers approaches for children to practice and explore language. Writing - a different but parallel process - can open the door to reading, and an effective writing approach in the home and early childhood classrooms leads to the development of phonemic awareness, understanding of phonetic principles, vocabulary, fluency, and comprehension. Effective early childhood teachers are those that extend the knowledge children have amassed at home and use the knowledge of how children learn naturally in the world to inform their practice. This book offers

the purpose, context, and outcomes of including writing right from the start in young children's literacy learning. Through analysis of writing samples, research, and principles of best practices, Shea outlines the essential ingredients for early language learning and provides a developmentally appropriate approach to language learning. Throughout the chapters, Shea integrates discussion of assessment, classroom environment, instructional/teacher scaffolding, and differentiating instruction across developmental levels along with the supporting theory. Special features: vignettes and descriptions of Pre-K, K, and Grade 1 classrooms that incorporate writing across the day artifacts of children's writing that demonstrate an evolution of knowledge related to both message and word construction concept labeling words and topic specific terms defined throughout the book to support the reader's understanding of professional terminology discussion of seminal and current research as well as best practices Companion Website with lesson ideas and abundant writing samples from a wide range of demographic, cultural, and language contexts for readers to view, analyze, and discuss. Writing for Pleasure Apr 21 2020 This book explores what writing for pleasure means, and how it can be realised as a much-needed pedagogy whose aim is to develop children, young people, and their teachers as extraordinary and life-long writers. The approach described is grounded in what global research has long been telling us are the most effective ways of teaching writing and contains a description of the authors' own research project into what exceptional teachers of writing do that makes the difference. The authors describe ways of building communities of committed and successful writers who write with purpose, power, and pleasure, and they underline the importance of the affective aspects of writing teaching, including promoting in apprentice writers a sense of self-efficacy, agency, self-regulation, volition, motivation, and writer-identity. They define and discuss 14 research-informed principles which constitute a Writing for Pleasure pedagogy and show how they are applied by teachers in classroom practice. Case studies of outstanding teachers across the globe further illustrate what world-class writing teaching is. This ground-breaking text is essential reading for anyone who is concerned about the current status and nature of writing teaching in schools. The rich Writing for Pleasure pedagogy presented here is a radical new conception of what it means to teach young writers effectively today.

Digital Reading and Writing in Composition Studies Nov 09 2021 As digital reading has become more productive and active, the lines between reading and writing become more blurred. This book offers both an exploration of collaborative reading and pedagogical strategies for teaching reading and writing that reflect the realities of digital literacies. This edited scholarly collection offers strategies for teaching reading and writing that highlight the possibilities, opportunities, and complexities of digital literacies. Part 1 explores reading and writing that happen digitally and offers frameworks for thinking about this process. Part 2 focuses on strategies for the classroom by applying reading theories, design principles, and rhetorical concepts to instruction. Part 3 introduces various disciplinary implications for this blended approach to writing instruction.

What is emerging is new theories and practices of reading in both print and digital spaces—theories that account for how diverse student readers encounter and engage digital texts. This collection contributes to this work by offering strategies for sustaining reading and cultivating writing in this landscape of changing digital literacies. The book is essential for the professional development of beginning teachers, who will appreciate the historical and bibliographic overview as well as classroom strategies, and for busy veteran teachers, who will gain updated knowledge and a renewed commitment to teaching an array of literacy skills. It will be ideal for graduate seminars in composition theory and pedagogy, both undergraduate and graduate; and teacher education courses, and will be key reading for scholars in rhetoric and composition interested in composition history, assessment, communication studies, and literature pedagogy.

A Stranger's Journey May 23 2020 Long recognized as a master teacher at writing programs like VONA, the Loft, and the Stonecoast MFA, with *A Stranger's Journey*, David Mura has written a book on creative writing that addresses our increasingly diverse American literature. Mura argues for a more inclusive and expansive definition of craft, particularly in relationship to race, even as he elucidates timeless rules of narrative construction in fiction and memoir. His essays offer technique-focused readings of writers such as James Baldwin, ZZ Packer, Maxine Hong Kingston, Mary Karr, and Garrett Hongo, while making compelling connections to Mura's own life and work as a Japanese American writer. In *A Stranger's Journey*, Mura poses two central questions. The first involves identity: How is writing an exploration of who one is and one's place in the world? Mura examines how the myriad identities in our changing contemporary canon have led to new challenges regarding both craft and pedagogy. Here, like Toni Morrison's *Playing in the Dark* or Jeff Chang's *Who We Be*, *A Stranger's Journey* breaks new ground in our understanding of the relationship between the issues of race, literature, and culture. The book's second central question involves structure: How does one tell a story? Mura provides clear, insightful narrative tools that any writer may

use, taking in techniques from fiction, screenplays, playwriting, and myth. Through this process, Mura candidly explores the newly evolved aesthetic principles of memoir and how questions of identity occupy a central place in contemporary memoir.

She interrogates notions of music and the shifting experience that is silence with a freshness and coherence that is inspiring David Toop, Author of *Ocean of Sound*, *Haunted Weather* and *Sinister Resonance* ... compulsive and fast, rushing with you through textual territories that seem spoken, direct and contemporary while being nostalgic - invoking a past that creates the present tense. Children Reading and Writing Jan 31 2021

This volume presents the results of a two-year research project which examined the development and use of reading and writing by school-aged children. The studies examined the relationships between children's reading and writing by looking at the social contexts that surrounded their understandings and uses of reading and writing; the cognitive processes that the readers and writers invoked in completing different kinds of tasks; and the products that were produced, including the ideas that were developed in reading and writing, and the ways in which these ideas were structured in presentation or recall. The results point to new understandings about children's context for literacy, and ways in which children at distinctly different phases of their schooling experiences approach reading and writing. The author contrasts ways in which children at each of the differing ages approach their reading and writing tasks, illuminating the knowledge they already have and what they have yet to learn.
