Foreign Parts Jul 24 2020 Cassie and Rona. Rona and Cassie. Two women on a driving holiday in Northern France. A caustic, coruscating and deeply funny account of morality, dysfunctional relationships and women abroad, Foreign Parts is that rare hybrid: a strikingly original novel about real life, told with accuracy, compassion and a truly saturnine delight. "From the Trade Paperback edition.

The Warden May 22 2020 The book centers on the character of Mr. Harding, a clergyman of great personal integrity, whose charitable income far exceeds the purpose for which it was intended. Young John Bold turns his reforming zeal to exposing what he considers to be an abuse of privilege, despite being in love with Mr. Harding's daughter Eleanor. The novel was highly topical as a case regarding the misapplication of church funds was the scandalous subject of contemporary debate. But Trollope uses this specific case to explore and illuminate the universal complexities of human motivation and social morality. This edition includes an introduction and notes by David Skilton and illustrations by Edward Ardizzone.

**An International Perspective on Design Protection of Visible Spare Parts** Sep 18 2022 This publication examines the legal aspects of the spare parts market from an IP perspective: specifically whether design protection for spare parts of a complex product extends to the spare part aftermarket, or whether that market should remain open to competition. The stakeholders' equally weighty arguments that must be balanced against are, on the one hand, the property interest in an earned IP right in the design of the part; and on the other, enhanced competition, likely reflected in lower prices. The mounting tension between these two positions is manifest an increased number of lawsuits in both the US and the EU. This book provides a discussion of the legal issues involved in this debate from a global perspective, with special focus on the EU and the US. Part I contextualizes the legal debate by discussing the historical background, the competitive situation and the respective stakeholder positions. Part II examines the relevant legal questions on a comparative basis, evaluating the likelihood of its adoption in the jurisdictions examined. Concluding that adoption is unlikely, Part III proposes a number of possible considerations meant to further compromise. Part IV concludes with a future outlook, specifically in light of the impact of technological development on this market.

**The Politics of Housing** Jun 22 2020 Exploring the politics of housing during 1890-1990, *The Politics of Housing* examines the interaction of national and local politics and key issues such as civic culture, key local players, local discourse, and geographical and demographic problems. It argues that tenants acted as consumers of a public service and questions the way in which notions of consumerism shaped responses to the housing debate. An analysis of the impact of legislation on housing policy in different cities is provided, as well as a more detailed account of the politics of housing in Manchester, including: the Victorian legacy, the emergence of government intervention, post-war overspill estates, new system-built flats and their rapid deterioration, rising tenant anger, and the beginning of a new approach based on consultation and partnerships.

Spares, Repairs, and Intellectual Property Rights Aug 05 2021 Although supplying spare and replacement parts and providing repair services form the basis of many legitimate businesses, many manufacturing enterprises seek to augment the competitive advantage realized at the market stage of selling their main products by attempting to monopolize the market for spares, repairs and refills. Increasingly, companies are using intellectual property laws to devise up-front business strategies to gain exclusive rights in the components of their products. This is the

first in-depth analysis of the law in this relatively new and rapidly developing area of practice. It sheds clear light on the conflicting interests of manufacturers, consumers, spare parts makers and the general public; explores the extent to which this kind of business strategy can be more or less successful with respect to the different rights involved, and in different jurisdictions; and highlights the competition issues that inevitably arise. The essays included are revised and updated versions of papers presented at the seventh (2006) of the innovative IP conference organized annually by the Macau Institute of European Studies (IEEM) on intellectual property law and the economic challenges for Asia. Among the topics and issues covered are the following: ; notions of and 'repairand' and and 'recycleand' and their legal effects; the limits of IP rights in relation to repair and recycle; legal limits of end user licence agreements (EULAs) and technological protection measures (TPMs); patent exhaustion on repair and recycling; alteration of product and 'identityand'; the concept of and 'indirectand' or and 'contributoryand' infringement; design law strategies; and secondary market definitions. The authors give detailed attention to cases in various jurisdictions that have guided and continue to guide business strategies in the field. Jurisdictions treated include the EU, the US, the UK, Germany, the Netherlands, China, Hong Kong, Japan, and Korea. In its clarification of the limits and possibilities of business strategies in this area of competition that is just beginning to attract attention, this book will be of great value not only to intellectual property law practitioners but to business people in nearly any field of production, especially where cross-border marketing is involved.

Church and Stage in Victorian England Oct 15 2019 During the reign of Queen Victoria, herself an ardent theatregoer as well as Supreme Governor of the Church of England, a remarkable rapprochement was effected between the Church and the stage. This 1997 book explores the implications for the theatre of the great religious movements of the period: Tractarianism, Christian Socialism and Latitudinarianism. This central relationship is seen in the context of other important themes in Victorian cultural history such as censorship, urbanization, transport, leisure, self-improvement and women's emancipation. The volume contains portraits of significant churchmen, dramatists, actors and actresses, including Newman and Keble, Bulwer Lytton and Shaw, Irving, Fanny Kemble and Ellen Terry. They were amongst the influential figures who participated in the search for a common culture which preoccupied the nineteenth century. To the Victorians the Church and the theatre were important parts of everyday life; in this study the two institutions are explored in relation not only to each other but also to the social, economic and intellectual movements of the period.
