Modern romance is broken. It's time to flip the script. Apps have transformed dating from a mysterious adventure into a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what—and who—they want. They're standouts in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would we tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In *Make Your Move: The New Science of Dating and Why Women Are in Charge*, Jon Birger, author of *Date-onomics*, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why:

- It's better to choose than to be chosen
- The "play hard to get" method is not only outdated but grounded in bad science
- The first move does not have to be a big move
- It's time to log off of dating apps and date men you actually know
- The workplace can be a terrific place to meet a long-term romantic partner
- . . . and more!

*Make Your Move* is an honest, solution-based guide to finding love that lasts. If you're tired of playing by old rules, look no further: Make your move and win. Respected counselors, popular radio hosts, and bestselling authors Cloud and Townsend now apply the principles described in their bestselling "Boundaries" to matters of love and romance. Discover How to Get the Guy You Want and Avoid Dead-End Relationships If a man doesn't take you seriously he may feel compelled to have a good time with you. Unfortunately, this good time will last until you finally realize you're being taken for a ride or until Mr. Time-Waster moves on to the woman he REALLY wants. In cases like this, what a woman really requires are two things: a healthy amount of self-respect and a set of "player-proof" dating rules that will allow her to make wise dating decisions as she navigates the treacherous territory of finding Mr. Right. How to Keep a Man Interested Without Playing Games or Becoming His Doormat Many dating advice books for women tout the idea that a high level of confidence is key when dealing with men. However, while this is partially true, being confident, at least in regards to making a man pursue you, is pointless without understanding how to apply that confidence in various dating situations when dealing with men. A woman's confidence is communicated to a man by what she stands for and what she doesn't. Being able to confidently socialize with men, having confident body language, and illustrating confidence in your femininity will only go so far if you still allow men to have their way with your emotions, time, affections, body, and anything else for that matter. Self-confidence makes a woman more attractive, but unless it effects how she enforces her personal boundaries it won't do anything to keep a man interested in her for the long-term. How to Date a Man to Keep Him Calling and Falling For You Women with strong personal boundaries are principle-centered, not men-centered or romance-centered. To them, their personal values, such as giving and receiving unconditional love, are more important to them than needing to be with any one particular guy. When a woman has strong personal boundaries she doesn't make excuses because of a man's handsomeness, status, wealth, race, background, promises, sexual chemistry, etc. She sticks to her guns and refuses to settle for dating situations that might cause her distress or jeopardize her future happiness. This book was designed to show women how men appraise female behavior in order to determine a woman's level of self-respect and therefore, her value as a romantic partner. In it, you'll discover the timeless seduction secrets and dating rules for women that will help you avoid those dating mistakes that make could make a woman appear desperate, needy, commonplace, or even "unqualified" for a serious commitment to a great guy. Here's what you're going to learn inside: The most powerful form of male seduction that can KEEP a woman helplessly "addicted" to chasing a man. How to keep a man interested by doing the one thing MOST women are terrified of doing when they find a great guy. An irritating habit that causes high-quality men to stop pursuing a woman almost INSTANTLY. How to "rebuff" undesirable male behavior and get the guy you want to either take you seriously or take a HIKE! A simple "Ego-Popping" phrase that burns into a man's memory, keeps you STUCK on his mind, and makes him DESPERATE to see you again. How to seduce a man and MELT his heart by overwhelming him with the ONE THING only the RIGHT woman can give him. A dangerous and common dating mistake that FORCES a man to disappear or "log out" of a relationship...for GOOD. Foolproof dating rules for women (the "Nice Girls") who feel that men CONSTANTLY take advantage of their love and kindness. And much, much more... Would You Like to Know More? Get started right away and discover how to get the guy and keep him interested in you without playing games. Scroll to the top of the page and select the "buy button" now. "Does anyone date anymore?" Today, the authorities tell us that courtship is in crisis. But when Moira Weigel dives into the history of sex and romance in modern America, she discovers that authorities have always said this. Ever since young men and women started to go out together, older generations have scolded them: That's not the way to find true love. The first women who made dates with strangers were often arrested for prostitution; long before "hookup culture," there were "petting parties"; before parents worried about cell phone apps, they fretted about joyrides and "parking." Dating is always dying. But this does not mean that love is dead. It simply changes with the economy. Dating is, and always has been, tied to work. Lines like "I'll pick you up at six" made sense at a time when people had jobs that started and ended at fixed hours. But in an age of contract work and flextime, many of us have become sexual freelancers, more likely to text a partner "u still up?" Weaving together over one hundred years of history with scenes from the contemporary landscape, Labor of Love offers a fresh feminist perspective on how we came to date the ways we do. This isn't a guide to "getting the guy." There are no ridiculous "rules" to follow. Instead, Weigel helps us understand how looking for love shapes who we are—and hopefully leads us closer to the happy ending that dating promises. A "must-read" (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. Great relationships don't just appear in our lives—they're the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn't lead to results. You have to actually change your behavior. Ury shows you how. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of Maybe You Should Talk to Someone) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. How to Not Die Alone will help you find, build, and keep the relationship of your dreams. Chances are, you've heard about Internet dating from a friend, or an online banner ad has caught your eye. "What would happen if Harry met Sally in the age of Tinder and Snapchat? . . . A field guide to Millennial dating in New York City" (New York Daily News). When New York-based graphic designers and long-time friends Timothy Goodman and Jessica Walsh found themselves single at the same time, they decided to try an experiment. The old adage says that it takes 40 days to change a habit—could the same be said for love? So they agreed to date each other for 40 days, record their experiences in questionnaires, photographs, videos, texts, and artworks, and post the material on a website they would create for this purpose. What began as a small experiment between two friends became an Internet sensation, drawing 5 million unique (and obsessed) visitors from around the globe to their site and their story. 40 Days of Dating: An Experiment is a beautifully designed, expanded look at the experiment and the results, including a great deal of material that never made it onto the site, such as who they were as friends and individuals before the 40 days and who they have become since. A LIGHT-HEARTED, INTIMATE AND EMPHATICALLY FEMINIST HISTORY OF DATING 'A new approach to romance . . . The heroines of Regency novels could teach today's young women a trick or two' Sunday Times 'Entertaining and well-researched' The Lady 'Pacey, intelligent and authoritative with bags of wit' Law Gazette 'A whistle-stop tour of dating through history' History Extra What if Mr Darcy had simply been able to swipe right? Dating has never been easy. The road to true love has always been rutted with heartbreak, but do we have it any easier today? How did Victorians 'come out'? How did love blossom in war-torn Europe? And why did 80s' video-dating never take off? Bursting with little-known facts and tantalising tales of lovelorn men and besotted women, Nichi Hodgson's intriguing history of amorous relationships, from enamoured Georgians to frenziedly swiping millennials (and everyone in between) may leave you grateful that you live - and love - today. We are fortunate to live in a world that is filled with love and kindness. It is a wonderful experience to love and to be loved by another person. There is no getting around the reality that going on a few dates is the first step in every romantic relationship. It is something that two people do with the intention of getting to know one another better. The dating phase of our lives is the most enjoyable and thrilling of all of them. If two individuals have gone out on a date, it indicates that they are interested in beginning a romantic connection with one another. It is the stage when both parties are still figuring out how to create a connection that would eventually lead to affection and love. What you truly need to know about dating may be found in this book, and it can help you learn it. The Rules taught a generation of women how to turn their dating misery into marriage success. Dating gurus Ellen Fein and Sherrie Schneider showed millions of women how 'playing hard to get' could help them capture the heart of Mr Right. Their book proved controversial, sparked worldwide debate and became a publishing phenomenon. But that was all before Twitter, Facebook, online dating, texting and BBM. There are now even more ways to mess up your dating life. Ellen and Sherrie are regularly inundated with messages from women wanting to know: how to maintain a good profile on Facebook, the rules for texting, emailing and tweeting, and how to spot cheaters and players. This is the new dating bible for Rules Girls who want to have a good time dating without getting hurt or played. The Tech sisters don't date in high school. Not because they're not asked. Not because they're not interested. Not even because no one can pronounce their long, Thai last name—hence the shortened, awkward moniker. But simply because they're not allowed. Until now. In a move that other Asian American girls know all too well, six months after the older Tech twins got to college, their parents asked, "Why aren't you engaged yet?" The sisters retaliated by vowing that they won't marry for ten (maybe even twenty!) years, not until they've had lots of dating practice. In a shocking war on the status quo, her parents now insist that their youngest daughter, Orrawin (aka "Winnie"), must date in high school. Under their watchful eyes, of course — and on dates they organize based on their favorite rom-coms. The first candidate? The son of their longtime friends, Mat Songsomboon—arrogant, dreamy, and infuriating. Winnie's known him since they were toddlers throwing sticky rice balls at each other. Her parents love him, so naturally he's the perfect person for her to pretend date. If only he weren't her sworn enemy. Is love just something you find in books? Six months ago, writer and bookstore owner Maddie Hanson was left at the altar. Since then, she's had zero interest in romance—despite the fact that she runs a book club full of sexy

eligible bachelors. But when her latest novel is panned by an anonymous blogger who goes by the name Silver Fox—and who accuses her of knowing nothing about passion—she decides to prove her nemesis wrong by seeking a romance hero in real life . . . There’s the smoldering rock musician, the bookish college professor, and her competitive childhood friend who may want to steal her bookstore more than her heart. Even Silver Fox is getting in on the action, sending Maddie alarmingly—and intoxicatingly—flirtatious emails. And that’s not all. Her ex wants her back. Now Maddie is about to discover that like any good story, life has twists and turns, and love can happen when you least expect it—with the person you least expect . . .
