This book, takes as reference, books written by renowned orientalist scholars, whose names are mentioned inside, specialized in ancient Arabic language as well as numerous archaeological discoveries. With this work, I try clearly to explain, why the Muslim Allah is the moon-god, therefore an idol, worshiped by the pre-Islamic Arab tribes at the time of Muhammad, and compared forcefully, by the alleged prophet, to the biblical God. In fact, all the ceremonies and rites that are currently being fulfilled by Muslims are, without exception, exactly the same rites and ceremonies, performed by pre-Islamic Arab populations to honor the idols of the Kaaba including the moon-god, Allah. I also write why the Kaaba could not have been built by Abraham. I explain why, since the Muslim Allah is the moon-god, thus an idol, cannot have dictated the Quran which was, therefore, conceived and written by men. In this book I explain why the Ramadan cannot have been ordained by any divine being. In this volume I point out, that, according to some of the greatest scholars of the Islamic religion and the Arabic language, the words "Islam" and "Muslim" are not words that existed at the time of Muhammad, so they could not have been written in the Quran and also that the Quran is a book written in a period far away from the alleged prophet lifetime. I wrote two chapters, to point out some senseless verses as well as different contradictions and assertions that, from what they declare, must necessarily come from human minds, always to show that Allah is the moon-god, an idol. I point out that in the Quran is indirectly asserted that their moon-god, Allah cannot be neither omnipotent nor omniscient. In this work I highlight two surah that clearly prove that the supposed Muslim holy book cannot come anywhere other than human minds and that therefore their god Allah does not exist. In this volume I cited the title of a book, written by an Iranian scholar, which points out how the Quran is a forgery. I also wrote clearly that not even Muslims know who should have dictated the Quran to Muhammad. I expose, in this volume, the reasons why the abrogating and the abrogated, the statement that later verses should repeal antecedent verses dealing with the same argument, cannot exist, whatever Muslims declare. I clearly illustrate why there can be

no Muslim exegetes trying to explain incomprehensible Quranic surah. I negate, as clearly as possible, that their moon-god, Allah, a non-existent idol, could have sent something to anyone to confirm the Scriptures. I have also tried to explain the reason that clearly indicates, as written in the Quran, that their god Allah can be neither omniscient nor omnipotent, in opposition to what Muslims declare. I point out why the biblical God could not have nothing do with the self-appointed messenger. According to researches accomplished by scholars, as well as archeological discoveries, it is known now, that the self-appointed messenger, was never mentioned until 60 years after his death. I rebut, in this work of mine, the fact that God, according to what the alleged prophet wrote in the Quran, could forget and make mistakes, while he (the self-appointed messenger), remembered everything and apparently could not make mistakes. I also outlined, in my book, the reason why all the hadiths can be refuted and how. A Look Inside the Sacred Book of One of the World's Fastest-Growing Religions What used to be an exotic religion of people halfway around the world is now the belief system of people living across the street. Through fair, contextual use of the Qur'an as the primary source text, apologist James R. White presents Islamic beliefs about Christ, salvation, the Trinity, the afterlife, and other important topics. White shows how the sacred text of Islam differs from the teachings of the Bible in order to help Christians engage in open, honest discussions with Muslims. In any theistic religion, the concept of God rests at the core of its beliefs, tenets and practices, and it determines what its adherents regard as admissible or otherwise. It shapes their attitudes towards others whom they label as "unbelievers." It inspires their perceptions, formulating how they conceive their role in life, how they should treat one another, what they should do when they sin or fall into error. It determines the extent of their humanity and provides them with a yardstick to measure that of others. Is Allah the God of the Bible? In any of the one hundred and fifty sects and sub-sects of Islam, the common denominator is Allah. Who is this Allah? Much has been written on the religion of Islam and its prophet; but not much is said about the god of the religion. One reason

is the assumption that the god of Islam and the God of Christianity are one and the same. When, on September 11, 2001, some Muslims carried out a well-organized attack, destroying the The World Trade Center and damaging the Pentagon, a letter of last instruction from the leaders of the terrorist network was discovered. Written in Arabic, it says their mission was a service to God. Actually this was a mistranslation. The word the terrorists used is not the Arabic word for God but Allah. The Arabic word for God is Ilah. So they believed they were working for Allah, not God. Who is this Allah? Were these terrorists extremists, or were they serving the Allah of the Qur'an? The war against terrorism goes beyond overthrowing the Taliban regime in Afghanistan or even killing Osama bin Laden. The war on terror may not be won unless we understand the Allah the terrorists say inspires them. Not all Muslims are terrorists. But the terrorists' letter, which is quoted fully in chapter three, gives great insight into the Islamic religion and the motivation for religious terrorism in the world. Why have we shied away from probing the identity of the Allah of Islam? Possibly it is because if Allah is not the God of the Bible, it would force us to face many ugly facts. For example, if Allah is the true God, and the Qur'an, Islam's sacred book, is true, then Christians can be sure they are lost, no matter how zealous they may be. The reverse would also be true. It is necessary, therefore, to provide sufficient information to enable you to determine your own verdict, and answer the question: Who is this Allah? This book will do that. This book is designed to help parents and teachers in their efforts to encourage young children to ask questions and to assist them in exploring answers together. It makes the sharing of a basic knowledge of Islam simple, clear and enjoyable. This lays the foundation on which greater understanding can be built and learning enriched as young students grow older. And, whatever our age, reviewing the basic in this way can be very beneficial, in that it re-kindles our awareness and glad acceptance of the beautiful message and wondrous knowledge of Islam: we are then the better able share our renewed enthusiasm with others. May you benefit greatly from reading this book. This book "Who is Shaitan" outlines

the brief story of Shaitan (Iblis) as mentioned in Quran and Tafseer. In this book you will find different names of shaitan and his fight with jinn due to which he attained the royal authority of Heavens and eventually his refusal to prostrate Adam. As punishment for his arrogance, Allah (God) expelled Iblis from heaven and sentenced him to hell. Later, Iblis made a request for the ability to try to mislead Adam and his children. Allah granted his request but also warned him that he will have no power over Allah's servants. Internationally respected scholar Richard Bauckham offers a brief, engaging study of divine revelation in Scripture. He probes the deep meaning of well-known moments in the biblical story in order to address the key question the Bible is designed to answer: Who is God? Accessible for laypeople and important to scholars, this volume begins by exploring three key events in the Bible in which God is revealed: Jacob's dream at Bethel (the revelation of the divine presence), Moses at the burning bush (the revelation of the divine Name), and Moses on Mount Sinai (the revelation of the divine character). In each case, Bauckham traces these themes through the rest of Scripture. He then shows how the New Testament builds on the Old by exploring three revelatory events in Mark's Gospel, events that reveal the Trinity: Jesus's baptism, transfiguration, and crucifixion. This book is based on the Frumentius Lectures for 2015 at the Ethiopian Graduate School of Theology in Addis Ababa and on the Hayward Lectures for 2018 at Acadia Divinity College, Nova Scotia. Inside this board book toddlers and young children will find out about the Qur'an's beautiful teachings: to care for all creation; to respect the books of God; to be good to one another; and to believe in Allah, the Creator. Stunning illustrations, full of color, bring the pages to life and the carefully written text is simple, easy to understand, and suitable to be read aloud. It also features some facts about the Qur'an and common questions children might ask, such as: what does the word "Qur'an" actually mean? Sara Khan is a writer, translator, and PhD candidate based in the UK. This is her first book. Alison Lodge is a children's illustrator based in North Wales, UK. This work is geared towards a Muslim audience. The

author's intention is to make Muslim contacts with those of other faiths more productive. Includes spirituality, theological differences between Christianity and Islam, practices compared, secularism, and da'wa (call to faith). A letter printed in the pages of The New York times in 2007 acknowledged differences between Christianity and Islam but contended that "righteousness and good works" should be the only areas in which the two compete. That letter and a collaborative Christian response appear in this volume, which includes subsequent dialogue between Muslim and Christian scholars. Ever wondered who is a prophet, and if there is a connection between the work of one prophet and another? This book explains the role of a prophet and the relationship between the work of one prophet and another while sharing with you the names and lives of some of the prophets of Islam. The prophets of Islam include: Adam, Idris (Enoch), Nuh (Noah), Hud (Heber), Saleh (Methusaleh), Lut (Lot), Ibrahim (Abraham), Ismail (Ishmael), Ishaq (Isaac), Yaqub (Jacob), Yusuf (Joseph), Shu'aib (Jethro), Ayyub (Job), Dhulkifl (Ezekiel), Musa (Moses), Harun (Aaron), Dawud (David), Sulayman (Solomon), Ilyas (Elias), Alyasa (Elisha), Yunus (Jonah), Zakariya (Zachariah), Yahya (John the Baptist), Isa (Jesus) and Muhammad. Peace be upon them all. In 25 Prophets of Islam you will learn: 1. That God is one. 2. About revelations mentioned in the Quran. 3. That the prophets were Muslims. 4. That Jesus was not the son of God. 5. Who committed the first murder. 6. About the similarity between Adam and Jesus. 7. What the Quran says about homosexuality. 8. Which prophet God spoke to direct. 9. That Jesus was not crucified and will come again. Find out about these and other issues by reading this book. Some of the biggest misconceptions that many non-Muslims have about Islam have to do with the word "Allah." For various reasons, many people have come to believe that Muslims worship a different God than Christians and Jews. This is totally false, since "Allah" is simply the Arabic word for "God" - and there is only One God. Let there be no doubt - Muslims worship the God of Adam, Noah, Abraham, Moses, David and Jesus - peace be upon them all. However, it is certainly true that Jews, Christians and Muslims all have

different concepts of Almighty God. For example, Muslims - like Jews - reject the Christian beliefs of the Trinity and the Divine Incarnation. This, however, does not mean that each of these three religions worships a different God - because, as we have already said, there is only One True God. Judaism, Christianity and Islam all claim to be "Abrahamic Faiths", and all of them are also classified as "monotheistic." However, Islam teaches that other religions have, in one way or another, distorted and nullified a pure and proper belief in Almighty God by neglecting His true teachings and mixing them with man-made ideas. First of all, it is important to note that "Allah" is the same word that Arabic-speaking Christians and Jews use for God. If you pick up an Arabic Bible, you will see the word "Allah" being used where "God" is used in English. This is because "Allah" is a word in the Arabic language equivalent to the English word "God" with a capital "G". Additionally, the word "Allah" cannot be made plural, a fact which goes hand-in-hand with the Islamic concept of God. It is interesting to note that the Aramaic word "El", which is the word for God in the language that Jesus spoke, is certainly more similar in sound to the word "Allah" than the English word "God." This also holds true for the various Hebrew words for God, which are "El" and "Elah", and the plural or glorified form "Elohim." The reason for these similarities is that Aramaic, This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. headings and translators' footnotes. *Servants of Allah* presents a history of African Muslims, following them from West Africa to the Americas. Although many assume that what Muslim faith they brought with them to the Americas was quickly absorbed into the new Christian milieu, as Sylviane A. Diouf demonstrates in this meticulously-researched, groundbreaking volume, Islam flourished during slavery on a large scale. She details how, even while enslaved, many Muslims managed to follow most of the precepts of their religion. Literate, urban, and well-traveled, they drew on their organization, solidarity and the strength of their beliefs to play a major part in the most well-known slave uprisings. But for all their accomplishments and contributions to the history and cultures of the African Diaspora, the Muslims have been largely ignored. *Servants of Allah*—a Choice 1999 Outstanding Academic Title—illuminates the role of Islam in the lives of both individual practitioners and communities, and shows that though the religion did not survive in the Americas in its orthodox form, its mark can be found in certain religions, traditions, and artistic creations of people of African descent. This 15th anniversary edition has been updated to include new materials and analysis, a review of developments in the field, prospects for new research, and new illustrations. *Who Is Allah SWT (God) The Creator of Earth and Heaven In Islam Bilingual Edition English Germany Hardcover Version* It is a known fact that every language has one or more terms that are used to refer to God and sometimes to lesser deities at the same time. This is not the case with Allah SWT. Allah is the personal name of the One true God. Nothing else can be called Allah. The term has no plural or gender. This shows its uniqueness when compared with the word "god," which can be made plural, as in "gods," or made feminine, as in "goddess." It is interesting to note that Allah is the personal name of God in Aramaic, the language of Jesus and a sister language of Arabic. The One true God is a reflection of the unique concept that Islam associates with Allah SWT. To a Muslim, Allah SWT is the Almighty Creator and Sustainer of the universe, Who is similar to nothing, and nothing is comparable to Him. The Prophet Muhammad SAW was asked by

his contemporaries about Allah SWT; the answer came directly from Allah SWT Himself in the form of a short chapter of The Noble Quran, which is considered to be the essence of the unity or the motto of pure monotheism. This is chapter 112, which reads: "In the name of Allah, the Merciful, the Compassionate. Say (O Muhammad), He is Allah, the One God, the Self-Sufficient, who has not begotten, nor has been begotten, and equal to Him is not anyone." (The Noble Quran) Scholars of Islam are familiar with the Koran's many errors and contradictions, but these have rarely been revealed to a wider public. THE ORIGINS OF THE KORAN is an attempt to remedy this deficiency by bringing together classic critical essays which raise key issues surrounding Islam's holy book. Indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world. Who Is the Jesus of Islam? This book compares Islamic theology with the Christian theology found in the Bible, and clearly shows which is true and which is false. Islam is the largest religion in the world, and is growing fast. Does this prove Islam to be true, and Christianity to be false? Should you and your loved ones join the crowd and become a Muslim? How long halt ye between two opinions? If Jesus be God, then serve him. But if Allah be God, then serve him. If Islam is false, then its shariah law is Satanic, so oppose shariah law as slavery and tyranny. But if Islam is true, then freedom is Satanic, so opposed freedom as evil and anti-God. This book explains how to understand the Quran by interpreting it in the same manner as Muslim clerics. Islamic doctrines discussed include: Jesus, jihad, monotheism and the Trinity, the Comforter, Heaven, Hell, and the Five Pillar of Islam as they relate to what a Muslim believes he must do to be saved from his sins. Muhammad's role as the final prophet, and his character and sexual practices are examined. Also discussed is how birth control and Bible versions relate to the clash between Islam and Christianity. Should Muslims convert to Christianity, or should Christians convert to Islam? Read this book to find out. This book tells the story of the Prophet Muhammad as an inspirational role model for anyone who wants to be extraordinary. You will learn how Muhammad shaped his personality as a child, dealt with the universal challenges of adolescence while a teenager, and then emerged as a leader in his community as a young adult. The book deliberately avoids the language of historical narration used in typical biographies of the Prophet in favor of a more informal, down-to-earth approach. In this book, the reader will get a completely different view of Muhammad and hopefully will see

how Muhammad addressed our own daily challenges, inspiring us to excel in confronting these challenges. "I enjoyed reading this book and recommend it to everyone who wants to be inspired by Muhammad, the greatest of mankind." Mirza Yawar Baig, author of Presenting Islam Today. The Qur'an: A Biography is a beautifully written and authoritative account of one of the world's most famous, and most misunderstood books. Few books in history are as poorly read or understood as the Qur'an. Sent down in a series of revelations to the Prophet Muhammad, it is regarded by the faithful as the unmediated word of Allah. It is revered by Muslims throughout the world, it inspires unparalleled levels of devotion, passion, fear and, sometimes, incomprehension. In this book, the distinguished scholar Bruce Lawrence shows precisely why the Qur'an is Islam. He describes the origins of the faith in seventh-century Arabia and looks at why the Qur'an needs to be both memorized and recited by its followers. Lawrence also discusses the book's many doubters and commentators and assesses its important influence in societies and politics today. Above all, Lawrence emphasizes that the Qur'an demands interpretation, and can only be properly understood through its history. [111:1] Perdition overtake both hands of Abu Lahab, and he will perish. [111:2] His wealth and what he earns will not avail him. [111:3] He shall soon burn in fire that flames, [111:4] And his wife, the bearer of fuel, [111:5] Upon her neck a halter of strongly twisted rope. About the story Amir has always heard his parents mention "Allah", thank "Allah" and pray for "Allah". But Amir never dared to ask them a question that always aroused his curiosity: who is Allah? until the day he decided to ask his mother. Will he get the answer? ----- It is the perfect gift that every parent should give to their children. The purpose of this story is to introduce your child to religion and to begin to answer simply the question that will sooner or later arouse his curiosity "Who is Allah? The best way to introduce Allah to your children is to read this kind of story to them, it will also encourage them to love reading and learn more about the beautiful religion, Islam. Engaging, accessible, and thought-provoking, No god but God is a persuasive, elegantly

written, and accessible introduction for young readers to a faith that for much of the West remains shrouded in ignorance and fear. Adapted for young readers from *No god but God: The Origins, Evolution, and Future of Islam*, this exploration of Islam by Reza Aslan, internationally acclaimed scholar of comparative religion, delves into the rituals and traditions of a religion that is largely misunderstood by the West. It covers the religion's origins—the revelation of Muhammad as Prophet and the subsequent uprising against him, and the emergence of his successors—as well as Islam's complex history. *No god but God* is sure to stimulate discussion and encourage understanding of the Islamic faith and the people who follow it. Praise for *No god But God: The Origins, Evolution, and Future of Islam* “This welcome addition to Islamic studies provides a valuable context for reflection about the origins of issues facing Muslims and their neighbors today.”—Publishers Weekly “An introduction to Islam as evocative as it is provocative.”—Kirkus Reviews “Wise and passionate book.”—New York Times Financial Times Best Book of the Year *Who Is Allah?* answers the specific question, and logically explains what historians and comparative religion experts have hesitated to reveal. The circumambulation behavior, slogans, symbols, cultural practices, prayer mats, prayer beads, and other minutia such as turbans and cassocks point to a surprising origin even a simpleton would recognize. These similarities are reflected in Freemasonry, and other secretive networks and societies. The shrine at Makkah (Mecca) originally contained 360 deities, reflecting a close kinship with eastern cultures and the worship of the heavens. The practice of circumambulation, the crescent & star, the shape of the shrine, the black stone object and its relationship to the opening of metal at the corner are among many distinctive traits associated with the worship of the Hindu deity Shiva. This book investigates what the shrine was all about prior to Muhammad, and how much was carried-over into practices and ritual objects used today. Crucial to understanding Islam is a recognition of the role of Muslim networks. The earliest networks were Mediterranean trade routes that quickly expanded into transregional paths for pilgrimage, scholarship,

and conversion, each network complementing and reinforcing the others. This volume selects major moments and key players from the seventh century to the twenty-first that have defined Muslim networks as the building blocks for Islamic identity and social cohesion. Although neglected in scholarship, Muslim networks have been invoked in the media to portray post-9/11 terrorist groups. Here, thirteen essays provide a long view of Muslim networks, correcting both scholarly omission and political sloganeering. New faces and forces appear, raising questions never before asked. What does the fourteenth-century North African traveler Ibn Battuta have in common with the American hip hopper Mos Def? What values and practices link Muslim women meeting in Cairo, Amsterdam, and Atlanta? How has technology raised expectations about new transnational pathways that will reshape the perception of faith, politics, and gender in Islamic civilization? This book invokes the past not only to understand the present but also to reimagine the future through the prism of Muslim networks, at once the shadow and the lifeline for the umma, or global Muslim community.

Over 4 years in the making, *Bleeding for Allah* scrutinizes Islam from the very birth of the religion. The Koran, the Holy Book of more than one billion people worldwide, is systematically analyzed to reflect the true nature of its message. *Bleeding for Allah* goes the full distance in detailing the uncomfortable and painful truth of that message. Although touted as a peaceful

religion and Islamic terrorists dismissed as misguided fanatics, it is clear that the very words of Allah, as voiced through the Archangel Gabriel to the Prophet Muhammad, are anything but peaceful. Markus Aurelius, in concise and clear fashion, gives countless examples of Koranic verse that readily demonstrates its militancy and violence. The author speaks to cultural bias and is quite sensitive to its influence on interpretation. But the author finds it extremely difficult to dismiss countless holy verse such as: Believers, take neither the Jews nor the Christians for your friends. (Koran, 5:51) or: Prophet, make war on the unbelievers and the hypocrites, and deal sternly with them. (Koran, 66:9). To further try to eliminate cultural bias, the book includes a comparative analysis of specific words between the New Testament and the Koran. For example, the words punishment and torture appear 600% more in the Koran while the word love appears 500% less. The author carefully examines the Prophet Muhammads life and outlines the gruesome details of his explosive success in the 7th century. The shrewd Prophet creatively found divine support from Allah for his banditry and mass murder. Sadly, more than one billion people believe those words today. Americans are woefully in the dark regarding the Koran. But few Americans have taken the time to read the Koran itself. Markus Aurelius challenges the American public to do just that. Bleeding for Allah is the perfect primer. It was narrated that a Bedouin was traveling on his camel when his camel suddenly dropped dead. He descended from the camel's back and started circling it while meditatively saying: Why don't you get up? Why don't you come back to life? Here are your limbs! They are perfectly complete and your body is sound! What is the matter with you? What used to keep you going? What worked in you to make you alive? What caused you to die? What stopped you now from moving? Then he left his camel in amazement, wondering what had happened to it. There are traces of past and present creations everywhere — are they meaningless or living signs of a Creator God? The perfect book to introduce young children to Allah. What would happen if Christians and a Muslim at a university talked and disagreed, but really tried to understand each other?

What would they learn? That is the intriguing question Peter Kreeft seeks to answer in these imaginative conversations at Boston College. An articulate and engaging Muslim student named 'Isa challenges the Christian students and professors he meets on issues ranging from prayer and worship to evolution and abortion, from war and politics to the nature of spiritual struggle and spiritual submission. In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled *Kitab al-Jihad* (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work. This book outlines the belief about our creator "Allah" as mentioned in the Holy Quran. I hope that reading this book will deepen our relationship with Allah. I want families to read that book daily at home with children, not only to increase their belief in Allah but also to encourage children to become true

lovers of Allah and to follow His instructions in daily routine life. Correct belief and faith can be introduced in our young children through the regular teachings of our religion. This book can be used as a daily bedtime storybook to engage children with Allah. The Deception of Allah is about The faith of Islam The name of this book is taken from Qur'an 3:54, which says, "plus they deceived and Allah deceived and Allah is the best of deceivers." V1 exposes some of the claims of Muslims about the Qur'an and scientific miracles, but In V 2 (Qur'an And Science in Depth) of the book covers the rest of it. The book is made to be a powerful tool in your hand to prevent any kind of deception can come to you or your family.
