In what Style Should We Build?

Jul 25 2020 "In 1828 a young architect, Heinrich Hübsch, published a polemical study in which he suggested that the rapid technological progress of the early nineteenth century, combined with changed living habits, had rendered the Greek Neoclassical style unsuitable for present needs or future development. The intriguing title of his book--In What Style Should We Build?--even more than its provocative argument, touched off a dispute among architects that filled the pages of the newly founded journals of the 1830s and 1840s. The theme of this often animated discussion, hastened by the burst of historical knowledge, was the choice of a style--that is, the determination of the premises from which a future and culturally appropriate style might be engendered. By mid-century, however, the confident expectation of bringing the search to a conclusion began to wane. Now, historicism, plurality of styles, and eclecticism were becoming dominant factors in architecture. Evidently, the debate had failed in its prime objective, and yet, it had set in motion intellectual forces that from our present perspective appear to have instituted a

new, nineteenth-century style. The Texts & Documents series offers to the student of art, architecture, and aesthetics neglected, forgotten, or unavailable writings in English translation. Edited according to modern standards of scholarship and framed by critical introductions and commentaries, these volumes gradually mine the past centuries for studies that retain their significance in our understanding of art and of the issues surrounding its production, reception, and interpretation. Eminent scholars assist in the selection and publication of volumes in the Texts & Documents series. Each volume acquaints readers with the broader cultural conditions at the genesis of the text and equips them with the needed apparatus for its study. Over time the series will greatly expand our horizon and deepen our understanding of critical thinking on art."-- Publisher website.

Biographies of a Reformation
Oct 16 2019 Biographies of a Reformation: Religious Change and Confessional Coexistence in Upper Lusatia, c. 1520-1635 investigates how religious coexistence functioned in six towns in the multiconfessional region of Upper Lusatia in Western Bohemia. Lutherans and Catholics found a feasible modus vivendi through written agreements and regular negotiations. This meant that the Habsburg kings of Bohemia ruled over a Lutheran region. Lutherans and Catholics in Upper Lusatia shared spaces, objects, and rituals. Catholics adopted elements previously seen as a firm part of a Lutheran confessional culture. Lutherans, too, were willing to incorporate Catholic elements

into their religiosity. Some of these overlaps were subconscious, while others were a conscious choice. This book provides a new narrative of the Reformation and shows that the concept of the 'urban Reformation', where towns are seen as centres of Lutheranism has to be reassessed, particularly in towns in former East Germany, where much work remains to be done. It shows that in a region like Upper Lusatia, which did not have a political centre and underwent a complex Reformation with many different actors, there was no clear confessionalization. By approaching the Upper Lusatian Reformation through important individuals, Martin Christ shows how they had to negotiate their religiosity, resulting in cross-confessional exchange and syncretism.

The Nazi Impact on a German Village Dec 30 2020 Many scholars have tried to assess Adolf Hitler's influence on the German people, usually focusing on university towns and industrial communities, most of them predominately Protestant or religiously mixed. This work by Walter Rinderle and Bernard Norling, however, deals with the impact of the Nazis on Oberschopfheim, a small, rural, overwhelmingly Catholic village in Baden-Wuerttemberg in southwestern Germany. This incisively written book raises fundamental questions about

the nature of the Third Reich. The authors portray the Nazi regime as considerably less "totalitarian" than is commonly assumed, hardly an exemplar of the efficiency for which Germany is known, and neither revered nor condemned by most of its inhabitants. The authors suggest that Oberschopfheim merely accepted Nazi rule with the same resignation with which so many ordinary people have regarded their governments throughout history. Based on village and county records and on the direct testimony of Oberschopfheimers, this book will interest anyone concerned with contemporary Germany as a growing economic power and will appeal to the descendants of German immigrants to the United States because of its depiction of several generations of life in a German village.

Report from the Select Committee on Public Libraries Nov 16 2019

The End and the Beginning Apr 21 2020 First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood

travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.
