The School for Good and Evil (The School for Good and Evil, Book 1) Oct 19 2022 THE SCHOOL FOR GOOD AND EVIL will soon be a major motion picture from Netflix, starring Academy Award winner Charlize Theron, Kerry Washington, Laurence Fishburne, Michelle Yeoh, Cate Blanchett, and many more! A dark and enchanting fantasy adventure for those who prefer fairytales with a twist. The first in the bestselling series.

Exploring the School Choice Universe Mar 12 2022 Exploring the School Choice Universe: Evidence and Recommendations gives readers a comprehensive, complete picture of choice policies and issues. In doing so, it offers cross-cutting insights that are obscured when one looks only at single issue or a single approach to choice. The book examines choice in its various forms: charter schools, home schooling, online schooling, voucher plans that allow students to use taxpayer funds to attend private schools, tuition tax credit plans that provide a public subsidy for private school tuition, and magnet schools and other forms of public school intra- and interdistrict choice. It brings together some of the top researchers in the field, presenting a comprehensive overview of the best current knowledge of these important policies. The questions addressed in Exploring the School Choice Universe are of most importance to researchers and policy makers. What do choice programs actually do? What forms do they take? Who participates, and why? What are the funding implications? What are the results of different forms of school choice on outcomes that matter, like student performance, segregation, and competition effects? Do they affect teachers' working conditions? Do they drive innovation? The contents of this book offer reason to believe that choice policies can further some educational goals. But they also suggest many reasons for caution. If choice policies are to be evidence-based, a re-examination is in order. The information, insights and recommendations facilitate a more nuanced understanding of school choice and provide the basis for designing sensible school choice reforms that can pursue a range of desirable outcomes.

Successful School Leadership Jan 10 2022 This book is based on the largest and most extensive empirical study of contemporary leadership in primary and secondary schools in England. The results demonstrate that heads of successful schools improve the quality of student learning and achievement through who they are – their values, virtues, dispositions and competencies – as well as their timely use of change and improvement strategies. Successful School Leadership provides a comprehensive analysis of the values and qualities of head teachers. It assesses the strategies they use and how they adapt these to their particular school context in order to ensure positive increases in the learning, well being and achievement of their students. The authors: Identify a basic set of leadership practices resulting from their findings Analyse and describe the leadership values, qualities and behaviours related to different phases in schools' improvement journeys Provide illustrative case studies of primary and secondary schools that highlight context sensitive strategies Provide a contemporary overview of international research and thinking about successful school leadership Recognize similar and distinguishing features between schools in different socio-economic groups This book is valuable reading for...school leaders and senior teachers, educational policy makers and advisors, as well as anyone involved or interested in education and its leadership.

City of the Beasts Dec 29 2020 A search for the Beast, a Yeti-like creature within the heart of the Amazon, becomes a quest for self-discovery in this young adult coming-of-age story filled with international adventure, rich mythology, and magical realism from globally celebrated novelist Isabel Allende. Fifteen-year-old Alexander Cold has the chance to take the trip of a lifetime. Parting from his family and ill mother, Alexander joins his fearless grandmother, a magazine reporter for International Geographic, on an expedition to the dangerous, remote world of the Amazon. Their mission, along with the others on their team—including a celebrated anthropologist, a local guide and his young daughter Nadia, and a doctor—is to document the legendary Yeti of the Amazon known as the Beast. Under the

dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia's spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

Characteristics of public school teachers' professional development activities Apr 01 2021 "Using data from the 1999-2000 Schools and Staffing Survey (SASS), this Issue Brief shows how prevalent various features of professional development activities were among public school teachers"--P. [1].

Successful School Staffing Strategies May 14 2022 Concepts in this book constitute a framework for developing efficient school staff practices. The underlying premise addressed in this basic topic is built upon forming a responsive educational community of constituents in which all staff members focus on student learning as a priority. The first two chapters define human resource function as contrast them with the ideology of developing human capital. Chapters 3 through 5 cite specific suggested activities in the actual hiring process from the school building leader as well as district leadership. Chapters 6 through 8 deal with generic staffing practices such as basic supervision, working with the non-professional staff and evaluating staff members. In Chapter 9 the topic of training, improving, and retaining school staff is mentioned. The last chapter, highlights the most essential principles that surround building human capital.

The Equality Act (2010) Feb 28 2021 Publication of this document is allowed under the Open Government Licence. If you are happy to download, print and bind the document for yourself then it is FREE to download in pdf form from the DfE website. On the other hand, you might like to adorn your desk or bookshelf with this beautifully bound version instead! This is non-statutory advice from the Department for Education. It has been produced to help schools to understand how the Equality Act affects them and how to fulfil their duties under the Act. It has been updated to include information on same-sex marriage. On 1 October 2010, the Equality Act 2010 replaced all existing equality legislation such as the Race Relations Act, Disability Discrimination Act and Sex Discrimination Act. It has consolidated this legislation and also provides some changes that schools need to be aware of. This advice is for school leaders, school staff and governing bodies in maintained schools and academies but may also be useful for local authorities and parents.

Staffing in Educational Institutions: Experiences from Tanzania Aug 25 2020 Scientific Essay from the year 2012 in the subject Pedagogy - School System, Educational and School Politics, University of Dodoma (Tanzania College of Education), language: English, abstract: This paper presents various issues regarding staffing. In an introductory part, the paper describes the origin of staffing by tracing back to the administrative management theory. Such staffing issues as conceptualization of staffing with regard to different scholars. The features of staffing, the importance of staffing and the implication in educational institutions, challenges facing staffing and the strategies to address these challenges are also clearly explained in this paper. In the last part, the paper concludes that, staffing is inevitable because of the dynamism of the organizations and the educational institutions in particular.

Employment Opportunity in the Schools Jan 30 2021

Employment alongside Bachelor's Studies in Germany Sep 25 2020 This study seeks to examine the implications of student employment for the studies, the entry into the labour market, and social inequalities in higher education. The main argument is that both the quantity and quality of work alongside studies can affect relevant academic and labour market outcomes. On the one hand, high amounts of work may prolong the studies and decrease academic achievement. Side-jobs during studies may also distract away students from continuing on in education. On the other hand, jobs of better quality—such that provide experience and skills that are important for the future career—may enhance the transition from education to work. Most important, student employment may generate inequalities in the higher education system if the advantages and disadvantages of working are unequally shared among

social groups. The study investigates these issues by using rich longitudinal data on the education and employment history of Bachelor's students in Germany, by looking at various facets of students' jobs, and by applying methods that aim at proving causality.

Good Teachers, Good Schools Apr 13 2022 'Good schools think with people and not to people' argues David Hudson in this thought-provoking practical guide for those wanting to bridge the gap between middle and senior management roles, and make a difference in their schools. Accessibly and engagingly written and packed with real-life examples, this book will prove essential reading for ambitious teachers and deputy heads everywhere. Whilst many management books tend to overcomplicate David writes with refreshing clarity and simplicity of thought. He sets out to inspire his readers to improve their practice and offers tried and tested strategies and solutions. Good teachers, good schools is a must have read for anyone interested in a senior school leadership role and for those leaders keen to improve their leadership style. The book covers every aspect of school leadership, from the decisions senior school leaders need to make such as running meetings, staffing and communication with staff and pupils to the difference between management and leadership and curriculum involvement including monitoring evaluation and self-evaluation. David Hudson encapsulates many principles that have made him a successful school leader. David Hudson has been teaching in secondary schools since 1973 and he has had a wide range of leadership and management roles including that of Head Teacher in two 11 – 18 schools.

Schools and Staffing Survey Jun 15 2022

100 Ideas for Primary Teachers: Engaging Parents Mar 20 2020 Parental engagement with children's learning is the best lever we have to raise achievement in schools. However, there is a gap between what is known from the research and actual practice at the chalkface in schools. Parents are still often seen as 'helping' the school, rather than having a direct role in their children's learning. Bringing together one of the main researchers in the field and an educational consultant, this book utilises their experience to present 100 evidence-based ideas to help primary teachers engage parents in their children's learning. 100 Ideas for Primary Teachers: Engaging Parents presents ideas for supporting the most effective forms of parental engagement, which are grounded in both the literature in the field and practical experience of working with schools and families. This book offers a clear, concise and easy-to-use format that takes into account how busy schools and teachers truly are!

OECD Reviews of School Resources: Flemish Community of Belgium 2015 Oct 27 2020 The effective use of school resources is a policy priority across OECD countries. The OECD Reviews of School Resources explore how resources can be governed, distributed, utilised and managed to improve the quality, equity and efficiency of school education.

The International Handbook of Educational Research in the Asia-Pacific Region Feb 23 2023 The aim of the Handbook is to present readily accessible, but scholarly sources of information about educational research in the Asia-Pacific region. The scale and scope of the Handbook is such that the articles included in it provide substantive contributions to knowledge and understanding of education in the Asia region. In so doing, the articles present the problems and issues facing education in the region and the findings of research conducted within the region that contribute to the resolution of these problems and issues. Moreover, since new problems and issues are constantly arising, the articles in the Handbook also indicate the likely directions of future developments. The different articles within the Handbook seek to conceptualize the problems in each specific content area under review, provide an integration of the research conducted within that area, the theoretical basis of the research the practical implications of the research and the contribution of the research towards the resolution of the problems identified. Thus, the

articles do not involve the reporting of newly conducted research, but rather require a synthesis of the research undertaken in a particular area, with reference to the research methods employed and the theoretical frameworks on which the research is based. In general, the articles do not advocate a single point of view, but rather, present alternative points of view and comment on the debate and disagreements associated with the conduct and findings of the research. Furthermore, it should be noted, that the Handbook is not concerned with research methodology, and only considers the methods employed in inquiry in so far as the particular methods of research contribute to the effective investigation of problems and issues that have arisen in the conduct and provision of education at different levels within the region.

100 Ideas for Primary Teachers: Writing Feb 17 2020 Experienced trio Adam Bushnell, Rob Smith (founder of The Literacy Shed) and David Waugh present 100 quick, exciting and inspiring writing activities for the primary classroom. Focusing on the underpinnings of literacy, including grammar, spelling and syntax, this must-have book provides ideas for '30-minute writes' – fun and engaging writing activities that can be completed within 30 minutes. The ideas can be completed in a standalone literacy session focusing on a particular writing skill, or incorporated into a longer session relating to literacy or even other subjects. With cross-curriculum links to blend writing and other subject areas such as history, art, PE, music and more, 100 Ideas for Primary Teachers: Writing is ideal for all teachers looking for fresh, invigorating ideas that have been tried and tested in primary classrooms.

Ebook: Cultures of Staff Wellbeing and Mental Health in Schools: Reflecting on Positive Case Studies

Apr 20 2020 Staff in schools have never been under so much pressure with high stakes accountability leading many teachers to rethink their profession. A third of Early Career Teachers are leaving within 5 years of training while Headteachers are less sure than ever that they will be able to continue to lead their schools. We have a staff wellbeing and mental health crisis in education. The schools in Cultures of Staff Wellbeing and Mental Health have addressed this crisis by implementing a whole-school culture of staff wellbeing and mental health. It has taken courage, determination and authenticity to prioritise relationships over results, not only between the children and their teachers, but also between the staff themselves. This book will support your school with:

- 32 individual chapter case-study accounts by headteachers and mental wellbeing leads of how they are implementing staff and pupil wellbeing in their schools. A rich resource of strategies and ideas to adapt to your own context.
- How to recognise and tackle staff burnout in your school, identifying the Maslach factors that cause it.
- Why teachers putting 'a brave face on it' is ineffective: Jonathan Glazzard presents his ground-breaking research identifying a connection between teacher wellbeing, pupil emotional response and attainment.
- What 'buffer' leadership is and why recognising it is crucial to the headteacher's mental health. This book belongs to the staff of the case-study schools that recount, in their own words, how focusing on wellbeing and mental health has transformed their schools. "This book exemplifies good practice and will hopefully inspire others to follow its case study leads." David Gumbrell, Founder of The Resilience Project "This book is an outstanding reference guide for all school leaders who wish to implement a culture of wellbeing based on evidence and success. A must read!" Suneta Bagri (FCCT), Former Head teacher, Founder of The Every Teacher Matters Project & Cultivate Coaching & Consultancy "The editor not only encourages the reader to engage & empower all staff to see and own their own wellbeing, but also for leaders to model self-care & the promotion of sustainable wellbeing behaviour." Patrick Ottley-O'Connor, Executive Headteacher "A must read for any school wanting to strengthen the wellbeing of their school community."

Daniela Falecki, Founder and Director Teacher Wellbeing Pty Ltd, Sydney Australia Steve Waters is the founder and director of the Teach Well Alliance. He has thirty years' experience as a secondary school English teacher. During this time he fulfilled many roles including middle leader and Assistant Headteacher. His previous books include Doing Your Research Project which is in its seventh edition.

The Teacher Gap Jul 04 2021 Teachers are the most important determinant of the quality of schools. We should be doing everything we can to help them get better. In recent years, however, a cocktail of box-ticking demands, ceaseless curriculum reform, disruptive reorganisations and an audit culture that requires teachers to document their every move, have left the profession deskilled and demoralised. Instead of rolling out the red carpet for teachers, we have been pulling it from under their feet. The result is predictable: there is now a cavernous gap between the quantity and quality of teachers we need, and the reality in our schools. In this book, Rebecca Allen and Sam Sims draw on the latest research from

economics, psychology and education to explain where the gap came from and how we can close it again. Including interviews with current and former teachers, as well as end-of-chapter practical guidance for schools, *The Teacher Gap* sets out how we can better recruit, train and retain the next generation of teachers. At the heart of the book is a simple message: we need to give teachers a career worth having. [TALIS 2018 Results \(Volume II\) Teachers and School Leaders as Valued Professionals](#) Nov 08 2021 This report aims to provide an in-depth analysis of teachers' and school leaders' perceptions of the value of their profession, their work-related well-being and stress, and their satisfaction with their working conditions. It also offers a description of teachers' and school leaders' contractual arrangements, opportunities to engage in professional tasks such as collaborative teamwork, autonomous decision making, and leadership practices.

[The School in the Home](#) Jun 22 2020

[Investing in the Health and Well-Being of Young Adults](#) Nov 27 2020 Young adulthood - ages approximately 18 to 26 - is a critical period of development with long-lasting implications for a person's economic security, health and well-being. Young adults are key contributors to the nation's workforce and military services and, since many are parents, to the healthy development of the next generation. Although 'millennials' have received attention in the popular media in recent years, young adults are too rarely treated as a distinct population in policy, programs, and research. Instead, they are often grouped with adolescents or, more often, with all adults. Currently, the nation is experiencing economic restructuring, widening inequality, a rapidly rising ratio of older adults, and an increasingly diverse population. The possible transformative effects of these features make focus on young adults especially important. A systematic approach to understanding and responding to the unique circumstances and needs of today's young adults can help to pave the way to a more productive and equitable tomorrow for young adults in particular and our society at large. *Investing in The Health and Well-Being of Young Adults* describes what is meant by the term young adulthood, who young adults are, what they are doing, and what they need. This study recommends actions that nonprofit programs and federal, state, and local agencies can take to help young adults make a successful transition from adolescence to adulthood. According to this report, young adults should be considered as a separate group from adolescents and older adults. *Investing in The Health and Well-Being of Young Adults* makes the case that increased efforts to improve high school and college graduate rates and education and workforce development systems that are more closely tied to high-demand economic sectors will help this age group achieve greater opportunity and success. The report also discusses the health status of young adults and makes recommendations to develop evidence-based practices for young adults for medical and behavioral health, including preventions. What happens during the young adult years has profound implications for the rest of the life course, and the stability and progress of society at large depends on how any cohort of young adults fares as a whole. *Investing in The Health and Well-Being of Young Adults* will provide a roadmap to improving outcomes for this age group as they transition from adolescence to adulthood.

[The Education and Employment of Disabled Young People](#) Dec 17 2019 Improving educational attainment and raising employment rates among disadvantaged groups are key targets for the current government. This report shows that for one important group - disabled young people - these goals are far from being achieved. The report analyses nationally representative data to show that parental background is more important than disability status in shaping young people's aspirations; despite high aspirations, educational and occupational outcomes are significantly worse for disabled young people and the gap between disabled and non-disabled young people's experiences widens as they get older. The report

argues that while mainstream and comprehensive education may have succeeded in raising aspirations for disabled young people, this has not been translated into real opportunities in early adult life. It also highlights the need for a new direction in careers advice and welfare to work programmes. Frustrated ambition: The education and employment of disabled young people is essential reading for academics, policymakers and practitioners with an interest in the role aspirations play in education and employment.
