**The Politicization of Safety** Mar 12 2022 A look at gun control, campus sexual assault, immigration, and more that considers the future of responses to domestic violence Domestic violence is commonly assumed to be a bipartisan, nonpolitical issue, with politicians of all stripes claiming to work to end family violence. Nevertheless, the Violence Against Women Act expired for over 500 days between 2012 and 2013 due to differences between the U.S. Senate and House, demonstrating that legal protections for domestic abuse survivors are both highly political and highly vulnerable. Racial and gender politics, the move toward criminalization, reproductive justice concerns, gun control debates, and political interests are increasingly shaping responses to domestic violence, demonstrating the need for greater consideration of the interplay of politics, domestic violence, and how the law works in people's lives. The Politicization of Safety provides a critical historical perspective on domestic violence responses in the United States. It grapples with the ways in which child welfare systems and civil and criminal justice responses intersect, and considers the different, overlapping ways in which survivors of domestic abuse are forced to cope with institutionalized discrimination based on race, gender, sexual orientation, and immigration status. The book also examines movement politics and the feminist movement with respect to domestic violence policies. The tensions discussed in this book, similar to those involved in the #metoo movement, include questions of accountability, reckoning, redemption, healing, and forgiveness. What is the future of feminism and the movements against gender-based violence and domestic violence? Readers are invited to question assumptions about how society and the legal system respond to intimate partner violence and to challenge the domestic violence field to move beyond old paradigms and contend with larger justice issues.

**Unsafe Home** Feb 28 2021 In *Unsafe Home: Child Harming within the Family*, Limor Ezioni focuses on the three major types of child harming within the family—abuse, incest, and filicide—and provides an in-depth exploration of each type historically, legally, and comparatively. In the first part, focusing on abuse executed on children, Ezioni addresses both physical and emotional abuse, discussing what constitutes child abuse, how it should be punished, and whether any damage caused to a child is prosecutable by law. In the second part of the book, Ezioni examines childhood incest, focusing on adult survivors and the multitude of legal problems they face while attempting to pursue justice through the legal system and questioning whether the current legal and criminal provisions provide sufficient protection for survivors. In the final section of the book, Ezioni examines the filicide phenomenon and how the judicial system in western countries deals with the painful reality that reflects the society in which it occurs—filicide is often carried out by parents who are unable to function as a parent in circumstances dictated by the place and time in which they live. Scholars of legal studies, family studies, criminology, and sociology will find this book particularly useful.

**Federal Oversight of Food Safety: FDA's Food Protection Plan Proposes Positive First Steps, But Capacity to Carry Them Out Is Critical** Jun 22 2020

The FDA is responsible for ensuring the safety of 80% of the U.S. food supply, including \$417 billion worth of domestic food & \$49 billion in imported food annually. Recent outbreaks caused by food contamination highlight the risks posed by the accidental contamination of FDA-regulated food products. Changing demographics & consumption patterns underscore the urgency for effective food safety oversight. In Nov. 2007, FDA released plans that discuss the oversight of food safety. This testimony focuses on: fed. oversight of food safety as a high-risk area that needs a governmentwide reexamination; FDA's opportunities to better leverage its resources; FDA's Food Protection Plan, & tools that can help agencies to address mgmt. challenges. Illus.

**Child Protection, Domestic Violence and Parental Substance Misuse** Jul 16 2022 This book draws on a wide range of evidence to explore the facts about the relationship between substance misuse and domestic violence and their effect on children, and examines the response of children's services when there are concerns about the safety and welfare of children. It reveals the vulnerability of these children and the extent to which domestic violence, parental alcohol or parental drug misuse impact on children's health and development, affect the adults' capacity to undertake key parenting tasks, and influence the response of wider family and the community. It includes parents' own voices and allows them to explain what help they feel would best support families in similar situations. The authors explore the extent to which current local authority plans, procedures, joint protocols and training support information sharing and collaborative working. Emphasising the importance of an holistic inter-agency approach to assessment, planning and service provision, the authors draw from the findings implications for policy and practice in both children and adult services. This book is essential reading for all professionals working to promote the welfare and wellbeing of children and those working with vulnerable adults, many of whom are parents.

*Catalog of Federal Domestic Assistance* Dec 21 2022 Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

When Violence Begins at Home Apr 13 2022 Since its initial publication, this far-reaching reference has provided professionals and victims of abuse with guidance on everything from indicators of an abusive relationship to domestic violence legislation, from anti-burnout tips for helpers to advice on leaving an abusive partner. This updated edition addresses new research and programs, adding information on date rape drugs, cyber-stalking, pregnancy and domestic violence, and more. Current controversial social and legal issues are also covered, and two new chapters devote attention to domestic violence in the military and to the challenging -- and rewarding -- role of those who work with battered women and their children.

Stopping the Violence Jun 03 2021 Help men learn to change abusive behavior! *Stopping the Violence: A Group Model to Change Men's Abusive Attitudes and Behaviors* helps practitioners reduce the negative atmosphere in a batterers' group for men while adapting to clients' individual needs, abilities, and levels of motivation. Useful in any type of patient setting, this comprehensive, hands-on guide provides a complete, step-by-step model for a batterer program that includes all of the forms, handouts, tools, and assignments necessary for the treatment process. Pro-feminist, cognitive, and behavioral in its orientation, this program works to eliminate the mindset that dominates, controls, and leads to the battering of women. The focus throughout the treatment process described in *Stopping the Violence* is not only on ending physical violence, but addressing what causes it. The exercises and suggestions in this program will teach your clients how emotional abuse, verbal abuse, substance abuse problems, mental health issues, and entitled and controlling attitudes contribute to and lead to battering. You will also find methods to help clients learn to take responsibility for their actions and discover if their childhoods have had an impact on their assumption of patriarchal and controlling attitudes. In addition, *Stopping the Violence* offers exercises on building self-confidence, self-esteem, self-control, and emotional support for your clients. This guide offers other valuable suggestions and exercises, such as: an explanation of 12 educational units to be presented by the therapist, including such topics as abuse and its effects, anger regulation, stress management, shame and empowerment, assertiveness, communication, and conflict resolution showing the client how to and why he should develop an increased realization of the impact of his abuse assisting the client in learning to monitor his internal and external escalation-to-violence cues creating a supportive group atmosphere that will decrease men's shame and isolation and increase their ability to feel empathy for themselves and others providing a reading list with additional resources that clients can use to enhance their treatment. Vital to any batterers' treatment that is starting or already exists, *Stopping the Violence* will help you teach your clients how they can find pride as nonabusive men in a society full of patriarchal values, as well as teach them to be in control of themselves—not their partners or their children. This guide will help you identify and change your clients' abusive behaviors and successfully show them how abusive behavior is hurtful and destructive for everyone involved.

**Handbook of Counseling Military Couples** Oct 27 2020 The military imposes unique and often severe challenges to couples, which clinicians – particularly the growing numbers of civilian clinicians who see military couples – often struggle to address. These problems are only compounded by misunderstandings and misconceptions about what it means to be part of a specific branch of the military and part of the military as a whole. *Handbook of Counseling Military Couples* includes a clear, thorough introduction to military culture and to couple relationships in the military. But more than that, it provides readers with expert analyses of the special types of issues that come up for military couples and shows clinicians how to address them productively. In the chapters, readers will find the answers to questions such as how are military couples' rights different from those of civilians? What attitudes and beliefs about relationships might military members bring to a session, and how are those different from those of civilians? What is the state of marriage and divorce in each of the branches and within the military in general? For a particular treatment modality, how does research in with military members compare to that of civilians? When should particular treatment strategies be used, and why – and how?

**Strengthening Systems to Prevent Intimate Partner Violence and Sexual Violence** Feb 11 2022 Over the past 25 years, developing coordinated responses to intimate partner violence and sexual violence has improved both perpetrator accountability, and victim safety and self-determination. However, preventing intimate partner violence and sexual violence from occurring is beyond the ability of any one type of organization. Preventing this violence requires a network of individuals, groups and organizations who coordinate and assess their efforts on an ongoing basis. This volume provides theoretical and practical guidance for the development of state and local prevention systems that hold the potential to eliminate persistent social problems. The development of prevention systems was informed by the data-driven public health model, systems theory and the ecological systems perspective. *Strengthening Systems to Prevent Intimate Partner Violence and Sexual Violence* offers guidance on how to gain participation of the right partners in developing a prevention system, and how to focus the work of that system on the critical areas of planning, implementation and capacity building. The guidance, resources and experience shared in this important collection will be invaluable to all those working towards the prevention of intimate partner violence and sexual violence. This book is based on a special issue of the *Journal of Family Social Work*.

The Workplace Violence Prevention Handbook Jan 22 2023 Workplace violence can occur anywhere: schools, office buildings, hospitals, or late-night convenience stores. It can occur day or night, inside or outside of the workplace, and it can include threats, harassment, bullying, stalking, verbal abuse, and intimidation. Left unchecked, workplace violence can lead to physical assaults and homicide. This handbook tackles this often overlooked but pervasive problem and provides a comprehensive five-step process for understanding and preventing it.

Chapters: how to use the catalog; agency summary; agency programs; alpha. index of programs; applicant eligibility; deadlines index; functional index; subject index; deleted and added programs; crosswalk of changes to program numbers and titles; program descriptions: programs requiring executive order 12372 review; authorization appendix; agency addresses; sources of additional info.; and developing and writing grant proposals.

**Blackstone's Guide to the Protection from Harassment Act 1997** Apr 01 2021 Covers many types of public order and personal dispute situations such as industrial strikes, neighbourhood disputes, investigative reporters and bullying at work. Includes a copy of the Act.

**Preventing Treaty Abuse** Dec 09 2021 Analysis of notion, roots and measures of treaty abuse The OECD initiative on Base Erosion and Profit Shifting has put the issue of treaty abuse and the means to counter it on top of the global political agenda. Preventing treaty abuse is therefore currently one of the most debated topics in international tax law. Diverging national legal traditions in combatting abuse both under domestic and tax treaty law have led to a globally diversified legal framework in this respect and make the OECD's agenda to harmonize these attempts even more challenging. The aim of this book is to analyze the notion of treaty abuse, its historical roots and the measures to counter it. The book's topics cover a wide range of both policy and legal issues. The contributions' main focus lies on analyzing the proposals put forward by the OECD in BEPS action items 6 and 7. In addition, this book analyzes the lessons which can be learnt from the US tax treaty policy and elaborates on the effects the intensified fight against treaty abuse will have from a Non-OECD member state perspective. Also EU law is taken into account and the question raised which impact the fundamental freedoms might have on the development of new anti-avoidance rules. Finally the relation between domestic and treaty based anti-avoidance is analyzed in great detail, identifying the methodical problems of ensuring a sound and abuse safe legal framework. With this book, the authors and editors hope to contribute to the discussion on selected issues of preventing treaty abuse and the challenges they present to policy makers, judges, tax administrations and tax advisers.

*There's NO Excuse for Domestic Violence* Dec 29 2020

**Safety Planning with Battered Women** Jul 04 2021 Safety Planning with Battered Women introduces a new model of woman-defined advocacy that is designed to bridge the gap that sometimes occurs between a battered woman's perspective and a victim advocate's perception. Created to improve service delivery to women who are victims of domestic violence, this new model emphasizes placing attention on the victim's assessment of the risk in a violent relationship and in her decision making. Authors Jill Davies, Eleanor Lyon, and Diane Monti-Catania strive to help advocates better understand battered women's decisions, including the decision to remain in an abusive relationship; to improve advocacy for victims with varying cultural backgrounds and experiences; and to provide advocates with assistance in redesigning their services, so they may better meet the needs of battered women. Since there are no quick fixes to the problems encountered in cases of domestic violence, it is vital that victims be provided with a real understanding of their options and the opportunity to implement those safety plans they deem most feasible. Safety Planning with Battered Women helps advocates tailor alternatives that will enhance the safety of battered women based on the individual realities of battered women. This book is both enlightening and highly practical and is a must read for anyone working with domestic violence victims. By introducing a woman-defined model and offering a new approach to advocacy, Safety Planning with Battered Women will compel readers to reexamine current approaches and examine the future provision of services to domestic violence victims, making it a valuable resource for students, researchers, academics, professionals, and practitioners.

**Developing a Violence Prevention Program** Sep 25 2020

**Domestic Violence** Aug 05 2021 This is an honest and insightful discussion of domestic violence from the perspective of a police officer who has experienced it in his home and encountered it professionally. Davis, a sociologist as well, uses his dual background to demonstrate that current treatment of domestic violence abuses is ineffective. A must read for all police officers, criminologists, and citizens who care about finding a successful solution to this issue. Ann W. Burgess, Chair of the Panel on Research on Violence Against Women, established by the National Research Council in 1995 at the request of congress writes that, Since the mid 1970s the body of research on violence against women has grown, yet misinformation abounds, and we seem little closer to ending violence against women now than 20 years ago. This book proposes that continuing to rely on the criminal justice system as the remedy for domestic violence is irresponsible and illogical public policy. This nation remains incapable of framing a coherent, consistent, or understandable criminal justice procedure that has effectively prevented domestic violence. Arrest without proper sanctions or proper supervision of abusers and the issuance of civil restraining orders without valid programs in place to assist the victims of abuse are predestined to failure. Current policies that provide for reactive intervention in domestic violence incidents must be replaced by policies that address the cause of domestic violence rather than simply treating its symptoms. This book explains why the criminal justice system can not prevent domestic violence and what the proper role of the criminal justice system should be. To prevent domestic violence we must concentrate on educational programs and policies that provide for alteration of our social and cultural patterns of behavior that foster this form of abuse. The formula to prevent or curb the continued escalation of domestic violence is available to women by means of our democratic process. Women can challenge the thousands of years of male domination politically, economically and socially by taking public office. The instrumentality to curb what goes on behind the closed doors of our homes and the mechanism to challenge what goes on behind the closed mahogany doors of Capitol Hill are one and the same. The illusory goal of equality of gender, equality and sameness are not synonymous, should be exchanged for a goal of an equity of conduct and a comportment of behavior that provides for fairness and frankness towards one another and a renewed respect for each other.

**Planning My Escape** Oct 07 2021 Having a safety plan is a necessary tool, if you are planning to leave an abusive relationship. This comprehensive, step-by-step plan will assist you in creating safety in eight areas of your life. It is imperative that you DO NOT take this plan home or leave it lying around for the abuser to find. Should the abuser find it, all of your planning will be for nothing. Once the abuser knows you are planning to leave, it will be harder for you to leave when you are truly ready. Above all, be safe and strategic.
