Locally Laid Oct 20 2022 How a Midwestern family with no agriculture experience went from a few backyard chickens to a full-fledged farm—and discovered why local chicks are

better. When Lucie Amundsen had a rare night out with her husband, she never imagined what he'd tell her over dinner—that his dream was to quit his office job (with benefits!) and start a commercial-scale pasture-raised egg farm. His entire agricultural experience consisted of raising five backyard hens, none of whom had yet laid a single egg. To create this pastured poultry ranch, the couple scrambles to acquire nearly two thousand chickens—all named Lola. These hens, purchased commercially, arrive bereft of basic chicken-y instincts, such as the evening urge to roost. The newbie farmers also deal

with their own shortcomings, making for a failed inspection and intense struggles to keep livestock alive (much less laying) during a brutal winter. But with a heavy dose of humor, they learn to negotiate the highly stressed no-man's-land known as Middle Agriculture. Amundsen sees firsthand how these midsized farms, situated between small-scale operations and mammoth factory farms, are vital to rebuilding America's local food system. With an unexpected passion for this dubious enterprise, Amundsen shares a messy, wry, and entirely educational story of the unforeseen payoffs (and frequent pitfalls) of one

couple's ag adventure—and many, many hours spent wrangling chickens. *When Pigasso Met Mootisse* Nov 28 2020 Pigasso, a talented pig, and Mootisse, an artistic bull, live across the road from one another, but when conflicts arise they build fences that ultimately become modern art masterpieces. Includes biographies of the real-life artists, Henri Matisse and Pablo Picasso. [The Goose That Laid the Golden Egg](#) Apr 02 2021 In 2001 Hoffman-La Roche's drug Accutane was selling in its billions worldwide as a treatment for acne. For those who suffered from extreme scarring acne, it was something

of a miraculous treatment, however evidence started to mount that for others it was a death sentence. Over the next few years it was estimated that between 300 and 3,000 young people being prescribed Accutane since its launch had committed suicide or killed others. In 2001 the father of young man in Ireland who had committed suicide approached Dr. Doug Bremner as Professor of Psychiatry & Radiology at Emory University to see if he could find a causal link between the drug and depression. His findings were that the drug did have an effect on the brain likely to cause acute depression in some patients, which was not

surprising as it is a molecular cousin of Vitamin A which is known to cause depression in excessive quantities. One might think that Hoffman-La Roche would have welcomed these findings. After all, no-one was doubting that Accutane was an extremely effective remedy in many cases, it was just that it appeared to have lethal side-effects in others. You might like to think again on that one. 'The Goose That Laid The Golden Egg' is the account of what Hoffman-La Roche did next, which was to prosecute a determined, energetic and vindictive campaign against Dr. Bremner designed to suppress his findings and destroy his career and livelihood.

Nonetheless, Dr. Bremner persisted and today the prescription of Accutane (now known as Roaccutane among several other names) is subjected to the closest of scrutiny not only for its potentially depressive effects, but also for the likelihood of its causing birth defects and stunting growth. Knowing that the life of a whistleblower is rarely a happy one, why did Dr. Bremner decide to take anything that Hoffman-La Roche could throw at him rather than back down? There may be some rational reasons for this such as he had a strong belief that the public should be well informed about the side-effects of drugs in order to be

able to make an objective decision, but maybe the real reason was more an emotional one stretching back to an equally determined, energetic and vindictive web of secrecy based on a pivotal and traumatic event in his childhood which he was also determined to get to the bottom of. From the pen of the author of 'Before You Take That Pill: Why the Drug Industry May Be Bad for Your Health: Risks and Side Effects You Won't Find on the Label of Commonly Prescribed Drugs, Vitamins, and Supplements', this is a truly riveting and emotional read detailing just what it costs to take on the full might of one of the largest

corporations in the world when you have never claimed to be a saint and have no desire to become a martyr.

Life Laid Bare Oct 16 2019 "To make the effort to understand what happened in Rwanda is a painful task that we have no right to shirk-it is part of being a moral adult." -Susan Sontag
In the late 1990s, French author and journalist Jean Hatzfeld made several journeys into the hilly, marshy region of the Bugesera, one of the areas most devastated by the Rwandan genocide of April 1994, where an average of five out of six Tutsis were hacked to death with machete and spear by their Hutu neighbors and militiamen. In the villages of

Nyamata and N'tarama, Hatzfeld interviewed fourteen survivors of the genocide, from orphan teenage farmers to the local social worker. For years the survivors had lived in a muteness as enigmatic as the silence of those who survived the Nazi concentration camps. In *Life Laid Bare*, they speak for those who are no longer alive to speak for themselves; they tell of the deaths of family and friends in the churches and marshes to which they fled, and they attempt to account for the reasons behind the Tutsi extermination. For many of the survivors "life has broken down," while for others, it has "stopped," and still others say that it "absolutely must go on."

These horrific accounts of life at the very edge contrast with Hatzfeld's own sensitive and vivid descriptions of Rwanda's villages and countryside in peacetime. These voices of courage and resilience exemplify the indomitable human spirit, and they remind us of our own moral responsibility to bear witness to these atrocities and to never forget what can come to pass again. Winner of the Prix France Culture and the Prix Pierre Mille, *Life Laid Bare* allows us, in the author's own words, "to draw as close as we can get to the Rwandan genocide."

My Wars Are Laid Away in Books Nov 09 2021 Emily Dickinson, probably the most loved and certainly the greatest of American poets, continues to be seen as the most elusive. One reason she has become a timeless icon of mystery for many readers is that her developmental phases have not been clarified. In this exhaustively researched biography, Alfred Habegger presents the first thorough

account of Dickinson's growth—a richly contextualized story of genius in the process of formation and then in the act of overwhelming production. Building on the work of former and contemporary scholars, *My Wars Are Laid Away in Books* brings to light a wide range of new material from legal archives, congregational records, contemporary women's writing, and previously unpublished fragments of Dickinson's own letters. Habegger discovers the best available answers to the pressing questions about the poet: Was she lesbian? Who was the person she evidently loved? Why did she refuse to publish and why was this

refusal so integral an aspect of her work? Habegger also illuminates many of the essential connections in Dickinson's story: between the decay of doctrinal Protestantism and the emergence of her riddling lyric vision; between her father's political isolation after the Whig Party's collapse and her private poetic vocation; between her frustrated quest for human intimacy and the tuning of her uniquely seductive voice. The definitive treatment of Dickinson's life and times, and of her poetic development, *My Wars Are Laid Away in Books* shows how she could be both a woman of her era and a timeless creator.

Although many aspects of her life and work will always elude scrutiny, her living, changing profile at least comes into focus in this meticulous and magisterial biography.

Brussels Laid Bare Jul 25 2020 Marta Andreasen is an accountant who says the EU doesn't account for the money it disburses to the projects it approves and she has first hand evidence. She ought to have taken advice on the way her story is written but I cannot argue with the facts she presents. If we want to be ruled by a junta of spendthrift rogues everyone should know how they manage matters, if we don't, we may care to consider what we get out of this monstrous confidence trick.

Neither of these alternatives will make you sleep better at nights and so I suppose her story will fall on deaf ears as bad news is never welcome. But you have to read this book if you are a European citizen, if only to discover why no-one knows where your money is going and who is lying about it. The Best Laid Plans May 23 2020 High school senior Keely Collins takes on firsts, lasts, and everything in between in this sweet, sex-positive rom-com for fans of Meg Cabot and Jenny Han. It seemed like a good plan at first. When the only other virgin in her group of friends loses it at Keely's own eighteenth birthday party, she's inspired to take things

into her own hands. She wants to have that experience too (well, not exactly like that--but with someone she trusts and actually likes), so she's going to need to find the guy, and fast. Problem is, she's known all the boys in her small high school forever, and it's kinda hard to be into a guy when you watched him eat crayons in kindergarten. So she can't believe her luck when she meets a ridiculously hot new guy named Dean. Not only does he look like he's fallen out of a classic movie poster, but he drives a motorcycle, flirts with ease, and might actually be into her. But Dean's already in college, and Keely is convinced he'll drop her if he finds out

how inexperienced she is. That's when she talks herself into a new plan: her lifelong best friend, Andrew, would never hurt or betray her, and he's clearly been with enough girls that he can show her the ropes before she goes all the way with Dean. Of course, the plan only works if Andrew and Keely stay friends--just friends--so things are about to get complicated. Cameron Lund's delightful debut is a hilarious and heartfelt story of first loves, first friends, and first times--and how making them your own is all that really matters.

Laid Bear (a Werebear Shifter BBW Romance) Dec 18 2019
Curvy girl Bethany Mills can't believe her good fortune when her new neighbor turns out to be devastatingly hot. But someone that gorgeous could never fall for someone like her...could he? A charming personality and appreciation for sappy music aren't the only things Maximilian Pearce is hiding, and just when Bethany thinks she might get her very own

happily ever after, a shocking revelation forces her to make a heartbreaking choice.

EXCERPT: Max set his beer on the counter and moved into her personal space. She backed up until she was pressed against the wall, the hideous African mask next to her head laughing at her. He planted his hands on either side of her and leaned in as close as he could without touching her. His breath was a whisper in her ear, shivers of delight and desire standing the hairs on the nape of her neck on end. The tips of her breasts could almost feel the warmth of his chest - longed to feel it - and his musk confused her senses. "Don't you know?" he breathed into her ear. His

cheek brushed her hair, and a lump rose in her throat. This can't be happening, she thought. Why the hell not? screamed Paul's voice in her head. He was right. Why the hell not? Her breath coming in shallow bursts and her heart thumping against her ribcage, Bethany lifted her face to his, meeting his hypnotic gaze. "Tell me," she whispered. His luscious full lips curved upward. "Because from the moment I saw you, I knew it was you I wanted." Bethany groaned at his words and pressed her body into his, drawing a matching groan from him. All thought left her brain as their lips touched. Max pushed her back against the

wall, as his fingers buried themselves in her hair. His mouth consumed hers, leaving her breathless and quivering with lust. A well of emotion bubbled inside of her, making her head spin and her heart pound uncontrollably. Never before had she felt this way about someone, especially someone she barely knew. She clutched at his shoulders and biceps, reveling in their bulk and reassuring herself that she wasn't dreaming. She was having a hard time believing those arms were wrapped around her. And then they weren't. Bethany was left swaying against the wall when Max pulled himself away from her. It was clearly by sheer

force of will because his desire for her was quite evident at the front of his jeans. She blinked in confusion. She parted her lips to ask what had happened when he leaned in, gave her a peck and smiled. "Ready to eat?"

Laid Back Around the World in 180 Days Oct 28 2020 From the vast deserts of Kazakhstan to the Pyrenees via the monsoons of Southeast Asia, the Australian Nullarbor, the Canadian Rockies and Great Lakes, this is Richard Evans's travelogue of his six-month journey around the world by recumbent bicycle in 2014. Averaging around 1,000km per week, Richard shared treacherously potholed

highways with speeding juggernauts, faced freezing nights and scorching days, and battled headwinds strong enough to blow him off the road. Having lost 7kg in the first seven weeks and with 19 weeks still to go, it was important to stabilise the weight loss. A cure was found in beer and dumplings. Roads varied erratically from freshly tarmacked highways of international standard one minute to heavily rutted dirt tracks the next, where all evidence of any rideable surface had long since disappeared. In the thermal pools of Taupo, New Zealand, he met ultra-runner Kevin Carr, who'd been running round the

world at over 50km/day for two years. Kevin's blog Hardwayround prompted Richard to consider renaming his own blog Easywayround. Because there were some easy bits too. And running is always harder. In an American supermarket he stumbled across the gun counter, where a shop assistant apologised for not knowing much about firearms because she usually worked on fruit and veg. Countless acts of spontaneous generosity from strangers propelled him along the way. Several times he was warned that he'd reached the edge of civilisation and to continue would be sheer folly because folk in the next

town/province/country were aggressive savages. Upon arrival however he was invariably met by benevolent locals interested in where he was from, where he was going and how old he was (521/2). Richard eventually finished back where he started, at BikeFix in London, having ridden 23,000km across 18 countries and four continents. The only aggression he'd faced had been on the roads: first from motorists, a sizeable minority of whom morph into murderous maniacs as soon as they get behind the wheel; and to a lesser extent from dogs - but Richard had his own special way of dealing with them... All royalties from this

book will go to RoadPeace, a small charity which looks after the bereaved and injured from road crashes, and campaigns for safer streets. Road crashes kill 1.3 million people worldwide every year - that's more every day than died in the Twin Towers on 9/11, and almost three times more than die from malaria.

Laid Low Sep 07 2021 The latest book by journalist and

author Paul Blustein to go behind the scenes at the highest levels of global economic policy making, *Laid Low* chronicles the International Monetary Fund's role in the euro-zone crisis. Based on interviews with a wide range of participants and scrutiny of thousands of documents, the book tells how the IMF joined in bailouts that all too often piled debt atop debt and imposed excessively harsh conditions on crisis-stricken countries. As the author shows, IMF officials had grave misgivings about a number of these rescues, but went along at the insistence of powerful European policy makers — to the detriment of

the Fund's credibility, with disheartening implications for the management of future crises. The narrative ends with a tale of the clash between Greece's radical Syriza government and the country's creditor institutions that reached a dramatic climax in the summer of 2015.

God's Philosophers Jan 11 2022 This is a powerful and a thrilling narrative history revealing the roots of modern science in the medieval world. The adjective 'medieval' has become a synonym for brutality and uncivilized behavior. Yet without the work of medieval scholars there could have been no Galileo, no Newton and no Scientific Revolution. In "God's

Philosophers", James Hannam debunks many of the myths about the Middle Ages, showing that medieval people did not think the earth is flat, nor did Columbus 'prove' that it is a sphere; the Inquisition burnt nobody for their science nor was Copernicus afraid of persecution; no Pope tried to ban human dissection or the number zero. "God's Philosophers" is a celebration of the forgotten scientific achievements of the Middle Ages - advances which were often made thanks to, rather than in spite of, the influence of Christianity and Islam. Decisive progress was also made in technology: spectacles and the mechanical clock, for instance,

were both invented in thirteenth-century Europe. Charting an epic journey through six centuries of history, "God's Philosophers" brings back to light the discoveries of neglected geniuses like John Buridan, Nicole Oresme and Thomas Bradwardine, as well as putting into context the contributions of more familiar figures like Roger Bacon, William of Ockham and Saint Thomas Aquinas.

uninhibited portrait of growing up gay in 1980s Alabama: exploring art and sex with “more layered insight than the page count should allow” (Hanif Abdurraqib, MTV News). DeShawn lives a high, creative, and promiscuous life in San Francisco. But when he’s called back to his cramped Alabama hometown for his uncle’s funeral, he’s hit by flashbacks of handsome, doomed neighbors and sweltering Sunday services. A modern American classic, *Since I Laid My Burden Down* is a raw and

searing look into the intersections of memory, Blackness, and queerness. “Performance artist Purnell beautifully captures a personality through introspection and memory in this slim novel . . . a compelling portrait of a particular disaffected kind of gay youth caught between religion, culture, and desire.” —Publishers Weekly “It’s a true novel, chaptered, and bound, that not only holds its own as queer literature, with its unapologetically misanthropic narrative, but also expands upon it.” —San Francisco Chronicle “An antidote to the rigamarole of gay lit.” —Mask Magazine “Slim yet potently

realized, with a lot to ponder.”
—The Bay Area Reporter
“Since I Laid My Burden Down has a fearless (sometimes reckless) humor as Brontez Purnell interrogates what it means to be black, male, queer; a son, an uncle, a lover; Southern, punk, and human. An emotional tightrope walk of a book and an important American story rarely, if ever, told.” —Michelle Tea, author of *Castle on the River Vistula*

Charlie Matheson has spent his life taking care of things. When his parents died two days before his eighteenth birthday, he took care of his younger brother, even though that meant putting his own dreams

When a stranger with epic tattoos and a glare to match starts coming into Matheson's Hardware, buying things seemingly at random and lugging them off in a car so beat-up Charlie feels bad for it, his instinct is to help. When the man comes in for the fifth time in a week, Charlie can't resist intervening. Rye Janssen has spent his life breaking things. Promises. His parents' hearts. Leases. folklore's wondrous powers." —Booklist According to Slavic myth, Baba Yaga is a witch who lives in a house built on chicken legs and kidnaps small children. In *Baba Yaga Laid an Egg*, internationally acclaimed writer Dubravka Ugresic takes the timeless legend and spins it into a fresh and distinctly modern tale of femininity, aging, identity, and love. With barbed wisdom and razor-sharp wit, Ugresic weaves together the stories of four women in contemporary Eastern Europe: a writer who grants her dying mother's final wish by traveling to her hometown in Bulgaria, an elderly woman who wakes up every day hoping to die, a buxom blonde hospital worker

who's given up on love, and a serial widow who harbors a secret talent for writing. Through the women's fears and desires, and their struggles

against invisibility, Ugresic presents a brilliantly postmodern retelling of an ancient myth that is infused with humanity and the joy of storytelling. "Ugresic's

postmodern take on myth, femininity, and aging provides a beautifully written window into Slavic literature."
