The Truth of the Christian Religion Aug 24 2020

Truth Jul 23 2020 In the first in a new series of easily digestible, commute-lengthbooks of original philosophy, renowned thinker John D. Caputo explores the many notions of 'truth', and what it really means Riding to work in the morning has become commonplace. We ride everywhere. Physicians and public health officials plead with us to get out and walk, to get some exercise. People used to live within walking distance to the fields in which they worked, or they worked in shops attached to their homes. Now we ride to work, and nearly everywhere else. Which may seem an innocent enough point, and certainly not one on which we require instruction from the philosophers. But, truth be told, it has in fact precipitated a crisis in our understanding of truth. Arguing that our transportation technologies are not merely transient phenomena but the vehicle for an important metaphor about postmodernism, or even constitutive of postmodernism, John D. Caputo explores the problems posited by the way in which science, ethics, politics, art and religion all claim to offer us (the) "truth", defending throughout a "postmodern", or "hermeneutic" theory of truth, and posits his own surprising theory of the many notions of truth. John D. Caputo is a specialist in contemporary hermeneutics and deconstruction with a special interest in religion in the postmodern condition. The Thomas J. Watson Professor of Religion Emeritus at Syracuse University and the David R. Cook Professor of Philosophy Emeritus at Villanova University, he has spearheaded an idea he calls weak theology.

On Truth and Untruth Apr 12 2022 "We continue to live within the intellectual shadow cast by Nietzsche." —New York Times Book Review Best known for his seminal works on religion, morality, existentialism, and contemporary culture, such as *The Birth of Tragedy* and *Thus Spoke Zarathustra*, Nietzsche focuses his penetrating insight on assessing the nature of truth in this concise and highly readable collection that charts the great philosopher's writings on truth. Joining Heidegger's *Basic Writings*, *The Essential Schopenhauer*, and other books in the Harper Perennial Modern Thought series, *On Truth and Untruth* offers unprecedented access to "the most influential of the great philosophers" (New Yorker).

Live Your Truth Nov 26 2020 We don't stumble accidentally into an amazing life. It takes a conscious commitment to figuring out what we stand for - finding our truth. It begins by looking inside ourselves, because when it rises from within, we have no choice but to express it, to live it. That is when magic

happens: fulfillment, happiness, relationships and success. The question is: How? With meditations on love, healing, entrepreneurship, overcoming failure, vulnerability, fear, the nature of the mind and the rhythm of life, "LiveYour Truth" is a guide to this crucial journey of self-exploration and personal discovery. The follow up to his runaway bestseller "Love Yourself Like Your Life Depends On It," Kamal Ravikant takes you on his journey, in the hope that it will help you find your truth and inspire you to live it. Prepare to be your best self.

Five Fictions in Search of Truth Dec 28 2020 Fiction, far from being the opposite of truth, is wholly bent on finding it out, and writing novels is a way to know the real world as objectively as possible. In *Five Fictions in Search of Truth*, Myra Jehlen develops this idea through readings of works by Flaubert, James, and Nabokov. She invokes Proust's famous search for lost memory as the exemplary literary process, which strives, whatever its materials, for a true knowledge. In *Salammbô*, Flaubert digs up Carthage; in *The Ambassadors*, James plumbs the examined life and touches at its limits; while in *Lolita*, Nabokov traces a search for truth that becomes a trespass. In these readings, form and style emerge as fiction's means for taking hold of reality, which is to say that they are as epistemological as they are aesthetic, each one emerging by way of the other. The aesthetic aspects of a literary work are just so many instruments for exploring a subject, and the beauty and pleasure of a work confirm the validity of its account of the world. For Flaubert, famously, a beautiful sentence was proven true by its beauty. James and Nabokov wrote on the same assumption--that form and style were at once the origin and the confirmation of a work's truth. In *Five Fictions in Search of Truth*, Jehlen shows, moreover, that fiction's findings are not only about the world but immanent within it. Literature works concretely, through this form, that style, this image, that word, seeking a truth that is equally concrete. Writers write--and readers read--to discover an incarnate, secular knowledge, and in doing so they enact a basic concurrence between literature and science.

A Crisis of Truth Dec 16 2019 "Green's work is of the greatest importance for the understanding of a crucial period in the history of English writing and institutions, and a crucial shift in patterns of cognition."—Derek Pearsall, Harvard University

Truth and Truthfulness Nov 07 2021 What does it mean to be truthful? What role does truth play in our lives? What do we lose if we reject truthfulness? No philosopher is better suited to answer these questions than Bernard Williams. Writing with his characteristic combination of passion and elegant simplicity, he explores the value of truth and finds it to be both less and more than we might imagine. Modern culture exhibits two attitudes toward truth: suspicion of being deceived (no one wants to be fooled) and skepticism that objective truth exists at all (no one wants to be naive). This tension between a demand for truthfulness and the doubt that there is any truth to be found is not an abstract paradox. It has political consequences and signals a danger that our intellectual activities, particularly in the humanities, may tear themselves to pieces. Williams's approach, in the tradition of Nietzsche's genealogy, blends philosophy, history, and a fictional account of how the human concern with truth might have arisen. Without denying that we should worry about the contingency of much that we take for granted, he defends truth as an intellectual objective and a cultural value. He identifies two basic virtues of truth, Accuracy and Sincerity, the first of which aims at finding out the truth and the second at telling it. He describes different psychological and social forms that these virtues have taken and asks what ideas can make best sense of them today. *Truth and Truthfulness* presents a powerful challenge to the fashionable belief that truth has no value, but equally to the traditional faith that its value guarantees itself. Bernard Williams shows us that when we lose a sense of the value of truth, we lose a lot both politically and personally, and may well lose everything.

The Lie That Tells a Truth: A Guide to Writing Fiction Jun 02 2021 "This is the most practical, hard-nosed, generous, direct, and useful guide to writing fiction." —Brad Watson Finally, a truly creative—and hilarious—guide to creative writing, full of encouragement and sound advice. Provocative and reassuring, nurturing and wise, *The Lie That Tells a Truth* is essential to writers in general, fiction writers in particular, beginning writers, serious writers, and anyone facing a blank page. John Dufresne, teacher and the acclaimed author of *Love Warps the Mind a Little* and *Deep in the Shade of Paradise*, demystifies the writing process. Drawing upon the wisdom of literature's great craftsmen, Dufresne's lucid essays and diverse exercises initiate the reader into the tools, processes, and techniques of writing: inventing

compelling characters, developing a voice, creating a sense of place, editing your own words. Where do great ideas come from? How do we recognize them? How can language capture them? In his signature comic voice, Dufresne answers these questions and more in chapters such as "Writing Around the Block," "Plottery," and "The Art of Abbreviation." Dufresne demystifies the writing process, showing that while the idea of writing may be overwhelming, the act of writing is simplicity itself.

The Immortal Truth Dec 08 2021 The action-packed sequel to *The Immortal Mark*. Cara and Riley know the truth about their new job, but they can't say a word about it to anyone or they'll be killed. While their fates hang in the balance, Theo has promised to find a way to help them. Help can't be found in Austin, so he spends a lot of time traveling and leaving Cara behind to pretend like everything is normal. Tired of sitting around and waiting to die, Cara and Riley want to take matters into their own hands. They discover the secrets of the Rosewater clan, and find out their leader isn't the leader at all. As mysteries are uncovered, they learn they've fallen into a hidden war of immortal clans that's been raging for centuries. Theo has been shielding Cara from the horrible truth, but Cara has just discovered some truths that even he didn't know. Also available in audiobook!

The Truth about Markets Oct 14 2019 We live, now more than ever before, in a world made of markets. How do they work? Why do they work? Why are they better than alternative systems of organizing economics? And why, sometimes, do they fail so catastrophically? This accessible book explains the big questions of contemporary economics. John Kay uses storytelling to show that markets cannot be detached from the societies in which they are based.

Post-Truth Feb 16 2020 2016 marked the birth of the post-truth era. Sophistry and spin have coloured politics since the dawn of time, but two shock events - the Brexit vote and Donald Trump's elevation to US President - heralded a departure into murkier territory. From Trump denying video evidence of his own words, to the infamous Leave claims of £350 million for the NHS, politics has rarely seen so many stretching the truth with such impunity. Bullshit gets you noticed. Bullshit makes you rich. Bullshit can even pave your way to the Oval Office. This is bigger than fake news and bigger than social media. It's about the slow rise of a political, media and online infrastructure that has devalued truth. This is the story of bullshit: what's being spread, who's spreading it, why it works - and what we can do to tackle it.

Confederates in the Attic Sep 24 2020 National Bestseller For all who remain intrigued by the legacy of the Civil War -- reenactors, battlefield visitors, Confederate descendants and other Southerners, history fans, students of current racial conflicts, and more -- this ten-state adventure is part travelogue, part social commentary and always good-humored. When prize-winning war correspondent Tony Horwitz leaves the battlefields of Bosnia and the Middle East for a peaceful corner of the Blue Ridge Mountains, he thinks he's put war zones behind him. But awakened one morning by the crackle of musket fire, Horwitz starts filing front-line dispatches again this time from a war close to home, and to his own heart. Propelled by his boyhood passion for the Civil War, Horwitz embarks on a search for places and people still held in thrall by America's greatest conflict. The result is an adventure into the soul of the unvanquished South, where the ghosts of the Lost Cause are resurrected through ritual and remembrance. In Virginia, Horwitz joins a band of 'hardcore' reenactors who crash-diet to achieve the hollow-eyed look of starved Confederates; in Kentucky, he witnesses Klan rallies and calls for race war sparked by the killing of a white man who brandishes a rebel flag; at Andersonville, he finds that the prison's commander, executed as a war criminal, is now exalted as a martyr and hero; and in the book's climax, Horwitz takes a marathon trek from Antietam to Gettysburg to Appomattox in the company of Robert Lee Hodge, an eccentric pilgrim who dubs their odyssey the 'Civil Wargasm.' Written with Horwitz's signature blend of humor, history, and hard-nosed journalism, *Confederates in the Attic* brings alive old battlefields and the new 'classrooms, courts, country bars' where the past and the present collide, often in explosive ways. Tony Horwitz's new book, *Spying on the South: An Odyssey Across the American Divide*, is available now.

Post-Truth May 13 2022 'A Malcolm Gladwell-style social psychology/behavioural economics primer' Evening Standard Low-level dishonesty is rife everywhere, in the form of exaggeration, selective use of facts, economy with the truth, careful drafting - from Trump and the Brexit debate to companies that tell us 'your call is important to us'. How did we get to a place where bullshit is not just rife but apparently so effective that it's become the communications strategy of our times? This brilliantly insightful book steps

inside the panoply of deception employed in all walks of life and assesses how it has come to this. It sets out the surprising logic which explains why bullshit is both pervasive and persistent. Why are company annual reports often nonsense? Why should you not trust estate agents? And above all, why has political campaigning become the art of stretching the truth? Drawing on behavioural science, economics, psychology and of course his knowledge of the media, Evan ends by providing readers with a tool-kit to handle the kinds of deceptions we encounter every day, and charts a route through the muddy waters of the post-truth age.

Education, Science and Truth May 21 2020 What is the main problem of contemporary education? Rasoul Nejadmehr argues that the cardinal problem with education is that it does not have an adequate notion of truth underpinning it. Thinkers mainly tend to veer towards two poles - absolutism and relativism. While a one-sided tendency toward absolutism leads to reified categories of thought and alienation, a tendency toward relativism leads to lack of universality and nihilism. Education, Science and Truth suggests a way out by bridging not only divides between and within analytical and continental philosophy but also those of modernism and postmodernism. By using a range of issues, disciplines and literature, Nejadmehr formulates a new version of the concept of objectivity based on the inclusion of multiple perspectives, including ones from art, philosophy and marginalized groups.

The Complete Writings of Roger Williams, Volume 2 Jun 21 2020 Ten years after the U. S. Civil War, a group of men in Rhode Island made a concerted effort to rescue the widely scattered writings of Roger Williams. Few sets were printed though, and under the guidance of Perry Miller, 'The Complete Writings of Roger Williams' were brought back in 1963, but still in short numbers. The present collection now makes these volumes available to readers in their original orthography. The theme of religious liberty is dominant in these volumes, running through Williams's correspondence with John Cotton and on through his famous pair of works on 'The Bloudy Tenent of Persecution.' All of the extant shorter writings and letters of Roger Williams are included in this set, along with two significant works resulting from his engagement with Native Americans: his seminal 'Key into the Language of America and Christenings Make Not Christians.'

Writing in Dante's Cult of Truth Jan 09 2022 Using the works of Dante as its critical focus, María Rosa Menocal's original and imaginative study examines questions of truth, ideology, and reality in poetry as they occur in a series of texts and in the relationship between those texts across time. In each case, Menocal raises theoretical issues of critical importance to contemporary debates regarding the structure of literary relations. Beginning with a reading of *La vita nuova* and the *Commedia*, this literary history of poetic literary histories explores the Dantean poetic experience as it has been limited and rewritten by later poets, particularly Petrarch, Boccaccio, Borges, Pound, Eliot, and the all but forgotten Silvio Pellico, author of *Le mie prigioni*. By blending discussions of Dante's own marriage of literature and literary history with those investigations into the imitative qualities of later works, *Writing in Dante's Cult of Truth* presents an intertextual literary history, one which seeks to maintain the uncanniness of literature, while imagining history to be neither linear nor clearly distinguishable from literature itself.

The Other Side of Truth Nov 14 2019 Puffin Classics: the definitive collection of timeless stories, for every child. Not a speck, not a stain on her gray school skirt and blue blouse to show what terrible thing had happened . . . If only by putting on something fresh and new, they could begin the day again. When twelve-year-old Sade's mother is killed, she and her little brother Femi are forced to flee from their home in Nigeria to Britain. They're not allowed to tell anyone - not even their best friends - as their whole journey is secret, dangerous - and illegal. Their dad promises to follow when he can, but once the children arrive in London, things go from bad to worse when they're abandoned by the people they had been told would protect them. Sade faces challenge after challenge - but her dad has always taught her to stand up for what is right, and to tell the truth no matter what. And with that strength of spirit in her heart, Sade will find the courage to fight for the new, happy life she, Femi and her dad deserve. A powerful novel which explores what it means to be classified as 'illegal' and the difficulties which come with being a refugee - winner of the Carnegie Medal 2000. 'A marvellous read ... that refuels the desire for justice and freedom' - Jon Snow 'Beverley Naidoo breaks the rules, producing books for young people which recognize that they want to know about the real world' Guardian 'This novel wholly deserves its classic status . . . still relevant and poignant.' Booktrust

The Nature of Truth, second edition Apr 19 2020 The definitive and essential collection of classic and new essays on analytic theories of truth, revised and updated, with seventeen new chapters. The question "What is truth?" is so philosophical that it can seem rhetorical. Yet truth matters, especially in a "post-truth" society in which lies are tolerated and facts are ignored. If we want to understand why truth matters, we first need to understand what it is. The Nature of Truth offers the definitive collection of classic and contemporary essays on analytic theories of truth. This second edition has been extensively revised and updated, incorporating both historically central readings on truth's nature as well as up-to-the-moment contemporary essays. Seventeen new chapters reflect the current trajectory of research on truth.

Identity Truth Upheld Aug 16 2022

Untold Truth Sep 05 2021 At Joe's funeral Jane had smiled believing her secret was safe, but 10 years on an anonymous letter on her desk brings back her fears of her secret being exposed. At the pinnacle of her career as a partner in what is predominately a man's business, she believes she will be ruined.

A Version of the Truth Feb 27 2021 We all see what we want to see...

The Truth About Writing Oct 18 2022 There's no better writing than what writers write about writing. Each author's perspective, each honest quip, and each unique truth offers insight into the process of self-expression. Curated here in a thoughtful collection, *The Truth About Writing* brings fresh attention to favorite writers, their thoughts, and their passions. Elevated with a fresh design, a foil-stamped cover, and colorful edge staining, this book of quotes is the perfect gift for novice and professional writers, avid readers, or anyone who loves the written word. Filled with wisdom from some of writing's best and brightest, including old favorites such as J. D. Salinger, Jack Kerouac, Sylvia Plath, and Ray Bradbury, and more contemporary figures such as Roxane Gay, Toni Morrison, Stephen King, and Cheryl Strayed, this book contains more than 380 quotations; many are contradictory, but all are true.

Language, Truth and Logic Nov 19 2022 "A delightful book ... I should like to have written it myself." — Bertrand Russell First published in 1936, this first full-length presentation in English of the Logical Positivism of Carnap, Neurath, and others has gone through many printings to become a classic of thought and communication. It not only surveys one of the most important areas of modern thought; it also shows the confusion that arises from imperfect understanding of the uses of language. A first-rate antidote for fuzzy thought and muddled writing, this remarkable book has helped philosophers, writers, speakers, teachers, students, and general readers alike. Mr. Ayers sets up specific tests by which you can easily evaluate statements of ideas. You will also learn how to distinguish ideas that cannot be verified by experience — those expressing religious, moral, or aesthetic experience, those expounding theological or metaphysical doctrine, and those dealing with a priori truth. The basic thesis of this work is that philosophy should not squander its energies upon the unknowable, but should perform its proper function in criticism and analysis.

The Light of Truth Feb 22 2023 The broadest and most comprehensive collection of writings available by an early civil and women's rights pioneer Seventy-one years before Rosa Parks's courageous act of resistance, police dragged a young black journalist named Ida B. Wells off a train for refusing to give up her seat. The experience shaped Wells's career, and—when hate crimes touched her life personally—she mounted what was to become her life's work: an anti-lynching crusade that captured international attention. This volume covers the entire scope of Wells's remarkable career, collecting her early writings, articles exposing the horrors of lynching, essays from her travels abroad, and her later journalism. *The Light of Truth* is both an invaluable resource for study and a testament to Wells's long career as a civil rights activist. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Fear, Truth, Writing Mar 11 2022 This book describes and examines the fear of exposure one faces when creating for cultural consumption. Examining the work of Cixous, Foucault, Irigaray, Spinoza, Hegel,

Hakim Bey, Heidegger, Kathy Acker, Derrida, and Kierkegaard, the author finds spaces where fear and anxiety give way to connection and community.

The War on Truth Jan 29 2021 The War on Truth investigates all aspects of the lead up to the war in Iraq, its execution, and its aftermath. Neil MacKay contends that the public was systematically fed untruths in a manner that questions what kind of democracy we really have. MacKay, award winning investigative journalist for Scotland's Sunday Herald newspaper has covered the West's intelligence agencies for many years. In this book he questions why 'intelligence' missed 9/11 and why the best funded intelligence networks in history got things so badly wrong. The WMD debate is also covered. MacKay's extensive contacts in the intelligence community make a telling contribution to this investigation and we see an intimate picture of how intelligence is gathered, how it is interpreted and why things go wrong. We also gain an insight to Neo-Cons, the radical think tank that surround George W. Bush and some of whom stated before 9/11, that the US "needed another Pearl Harbor" to condition the American people (and their allies) into supporting war against Saddam Hussein. Author Neil MacKay is a three-times finalist as British Reporter of the Year in the British Press Awards, Britain's equivalent of the Pulitzer Prize. MacKay revealed the identity of the Omagh bomber, exposed the British Army colonel who used loyalist terrorists as proxy assassins throughout the "Troubles" in Northern Ireland and unmasked "Stakeknife," the highest-ranking British army spy inside the IRA. His investigations into the war on terror and the invasion of Iraq have won international acclaim. More than 200,000 US readers regularly turn to his stories on the internet every Sunday. In 1999, MacKay famously wrote an article based on briefings with CIA operatives in Pakistan that reported that al-Qaeda and Osama bin Laden planned to use planes to attack mainland America. He has appeared on TV and radio regularly as a commentator in the UK, France. Italy. Japan. America. Canada, South America, Australia, New Zealand, Germany and throughout the Middle East. John Pilger: "Neil's masterly and prodigious scoops are the stuff of newspaper legend" Truthout.org: "the gold standard of investigative journalists" REVIEWS John Pilger: "Neil's masterly and prodigious scoops are the stuff of newspaper legend" British Press Awards: "the cool journalist - the guy who's first with the news." Truthout.org: "the gold standard of investigative journalists"

Truth Mar 31 2021 The aim of the series is to bring together important recent writing in major areas of philosophical inquiry, selected from a variety of sources, mostly periodicals, which may not be conveniently available to the university student or the general reader. The editors of each volume contribute an introductory essay on the items chosen and on the questions with which they deal. A selective bibliography is appended as a guide to further reading. This volume is designed to set out some of the central issues in the theory of truth. It begins with writings by F. H. Bradley, William James, Gottlob Frege, and Bertrand Russell, and continues with the classical discussions from the middle of the century (including Wittgenstein, Quine, and Austin), ending with a selection of contemporary contributions, including essays from Donald Davidson and Richard Rorty. The collection draws together, for the first time, the debates between philosophers who favour 'robust' or 'substantive' theories of truth, and those other, 'deflationist' or minimalists, who deny that such theories can be given. The editors provide a substantial introduction, in which they map out this terrain and locate writers from Frege to Wittgenstein and Davidson within it. They also describe how these debates relate to more technical issues, such as work on the Liar paradox and formal truth theories.

Clear and Simple as the Truth Sep 17 2022 Everyone talks about style, but no one explains it. The authors of this book do; and in doing so, they provoke the reader to consider style, not as an elegant accessory of effective prose, but as its very heart. At a time when writing skills have virtually disappeared, what can be done? If only people learned the principles of verbal correctness, the essential rules, wouldn't good prose simply fall into place? Thomas and Turner say no. Attending to rules of grammar, sense, and sentence structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole-in-one. Furthermore, ten-step programs to better writing exacerbate the problem by failing to recognize, as Thomas and Turner point out, that there are many styles with different standards. In the first half of *Clear and Simple*, the authors introduce a range of styles--reflexive, practical, plain, contemplative, romantic, prophetic, and others--contrasting them to classic style. Its principles are simple: The writer adopts the pose that the motive is truth, the purpose is presentation, the reader is an intellectual equal, and the occasion is informal. Classic style is at home in everything from

business memos to personal letters, from magazine articles to university writing. The second half of the book is a tour of examples--the exquisite and the execrable--showing what has worked and what hasn't. Classic prose is found everywhere: from Thomas Jefferson to Junichir? Tanizaki, from Mark Twain to the observations of an undergraduate. Here are many fine performances in classic style, each clear and simple as the truth. Originally published in 1994. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Meaning of Truth Oct 26 2020 The work of a leading figure in the transition from a predominantly European-centered 19th-century philosophy to a new American philosophy, this volume presents a full and definitive expression of the pragmatist epistemology.

Truth Jul 15 2022 This important book is about truth, and the enemies of truth, and the wars that are fought between them. As Simon Blackburn says in his introduction, "the ground is complicated, strewn with abandoned fortresses and trenches, fought over by shifting alliances". Truth is an essential sure-footed guide through the territory, from classical to modern times. It looks at relativism and absolutism, toleration and belief, objectivity and knowledge, science and pseudo-science, and the moral and political implications, as well as the nuances, of all these.

On Truth May 01 2021 The classic approaches -- Correspondence -- Coherence -- Pragmatism -- Deflationism -- Tarski and the semantic theory of truth -- Summary of part I -- Varieties of enquiry -- Truths of taste; truth in art -- Truth in ethics -- Reason -- Religion and truth -- Interpretations.

The ONE Thing Jun 14 2022 • More than 500 appearances on national bestseller lists • #1 Wall Street Journal, New York Times, and USA Today • Won 12 book awards • Translated into 35 languages • Voted Top 100 Business Book of All Time on Goodreads People are using this simple, powerful concept to focus on what matters most in their personal and work lives. Companies are helping their employees be more productive with study groups, training, and coaching. Sales teams are boosting sales. Churches are conducting classes and recommending for their members. By focusing their energy on one thing at a time people are living more rewarding lives by building their careers, strengthening their finances, losing weight and getting in shape, deepening their faith, and nurturing stronger marriages and personal relationships. YOU WANT LESS. You want fewer distractions and less on your plate. The daily barrage of e-mails, texts, tweets, messages, and meetings distract you and stress you out. The simultaneous demands of work and family are taking a toll. And what's the cost? Second-rate work, missed deadlines, smaller paychecks, fewer promotions--and lots of stress. AND YOU WANT MORE. You want more productivity from your work. More income for a better lifestyle. You want more satisfaction from life, and more time for yourself, your family, and your friends. NOW YOU CAN HAVE BOTH — LESS AND MORE. In The ONE Thing, you'll learn to * cut through the clutter * achieve better results in less time * build momentum toward your goal* dial down the stress * overcome that overwhelmed feeling * revive your energy * stay on track * master what matters to you The ONE Thing delivers extraordinary results in every area of your life--work, personal, family, and spiritual. WHAT'S YOUR ONE THING?
