

hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't. This book is a catalog for an exhibition of 100 years of Indian motorcycles that is being held at the Motorcycle Hall of Fame Museum until December 2002. Beautiful photographs depict the exhibition bikes at the museum. Read about the history of this sought-after cycle, from the founding of the company up to the present day trademark battles. It includes rare racing bikes and road bikes. This is the compelling story of how one of Japan's biggest motorcycle manufacturers stole a Nazi rocket scientist's engine secrets from behind the Iron Curtain to conquer the world. Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set. A comprehensive history of Ducati's single-cylinder motorcycles which includes street scramblers, the little two-strokes, the bikes for Barcelona (such as the 24 Horas) and the factory road racers. Injury. Adrenaline. Addiction. These are the things that fuelled one man's race to international stardom as he pushed boundaries and took life on and off the bike to the limits. Starting out as a talented youth riding the desert tracks of California, his reckless nature and incredible talent earned him a position in the rarefied world of professional motorcycle racing. Despite the success in his professional life, his personal life was crumbling around him - John was battling with depression and temptation, which began to threaten his career, health and marriage, ultimately bringing him to a life of alcoholism, addiction and even smuggling. In his remarkable memoir, one of the world's most renowned riders takes us on a raw and unique journey to the extremes of fast living. John 'Hopper' Hopkins is an icon for motorsport fans worldwide. He won't let anything hold him back. He has broken almost every bone in his body (twice), suffered a bleed on the brain, and had a finger amputated... yet he continued to race. Finally, at the age of 35 - with his latest crash at Brands Hatch in 2017 putting him in rehab for two years - he decided to hang up his helmet. Leathered tells the incredible story of an unparalleled career. From bone-crunching injuries and alcohol-fuelled antics to the breakdown of his marriage, it unveils the true stories behind the lurid headlines. Valentino Rossi once said, "To be a great motorbike racer, the most important thing is passion for the bike." Vintage motocross enthusiast Keith Geisner has this passion,

and it leads him on a journey of discovery when he finds an old Harley-Davidson dirt bike for sale online. A mere moment's pause on a photograph, and Keith becomes both restorationist and researcher of a piece of American motocross history. Through social media, emails, phone calls and sheer tenacity, Keith uncovers the bike's unique history. His extensive research led him to motocross legends and Bill Davidson, the great-grandson of Harley-Davidson Motorcycle Co. founder William Davidson. His story is a detective novel for motorcycle enthusiasts where every page, like an enduro, is full of twists and turns. # I like to refer to the author as "Detective Geisner." His tireless efforts to unearth historical details about the Harley-Davidson motocross project have no bounds and his enthusiasm for the subject borders on obsession. He has traveled extensively to meet and interview the riders, mechanics, and engineers who were involved. His "investigations" have turned up details about the MX project that were sometimes unknown even to those of us who worked on the H-D Factory team in those days. So, it's fair and correct to say that this book is the definitive study of Harley-Davidson's controversial participation in American motocross. Well done, Keith Geisner! Steve Storz Owner of Storz Performance Member of the Trailblazer MC HOF H-D Factory Mechanic With their zest for both adventure and food and their laugh-out-loud capacity for fun, the Hairy Bikers make a very entertaining pair, travelling on their motorbikes to the ends of the earth in search of great meals to bring home to their friends. The journeys are exciting, the locations and people are fascinating and the food is delicious and unpredictable - often caught by the boys and then prepared and cooked by the side of a river, on a boat or on the beach. Funny, endearing and down-to-earth, they will very easily find a place in the nation's hearts. Charley Boorman is back on his bike exploring the world's second largest country - home to some of the most stunning and challenging terrain known to man. Canada is a country of extremes, and Charley knows all about pushing the limits. He goes dirt biking in New Brunswick, dives through old shipwrecks in Tobermory and rides along Butch Cassidy's old Outlaw Trail. He also meets a fascinating mix of people on his journey. As he heads across Canada, he plays ice hockey with a legend of the game; spends a day as a Mountie cadet and nearly meets a ghost in Winnipeg . . . Written with Charley's trademark enthusiasm and humour, Extreme Frontiers is fast-paced, hugely entertaining and packed with adventure (and rather a lot of mosquitoes). Sumptuous official 100th anniversary book. The inside story told for the first time by the grandson of the founder.
